Sale Conditions -- Read Carefully, Please, Before Ordering

TRUENESS OF NAME—Much time is spent checking labels, when plants are in bloom, to make certain that none are wrongly labeled, and every effort is made to keep the youngsters in their places, from propagation beds to field; but we raise thousands of plants in hundreds of varieties, and we could make mistakes. Should any prove untrue to name, please let us know, and we will do our best to correct the error.

PLANT QUALITY—We try our best to give you a plant that is well rooted, free of disease, and one that will meet your expectations, no matter what size your order calls for. We think we grow plants that are as good as the finest.

NURSERY SELECTION—If you are looking for something special in shape, or size, a visit to the nursery would be wise; you will be charged according to your selection only, not a premium.

IT IS IMPOSSIBLE TO GUARANTEE THE LIFE of any plant. No one has that control. We have no way of knowing the treatment they will receive after they leave us. Some plants are perfectly hardy here in our nurseries, but that may not prove true where the Winter or soil is different. Read carefully our

CULTURAL DIRECTIONS. We make severe tests and give little or no Winter protection to prove hardiness, especially among the newer introductions. Drought often causes death to plants, and we cannot guarantee against that.

BREAKAGE EN ROUTE TO CUSTOMER—We advise shipping only by Express Collect, except for the small plants. Plants arrive in better condition by this method. Once we have delivered shipment to Express Agent from whom you receive shipment. He will immediately file your claim for damages which occur while in transit. We assume no responsibility for any damage after delivery to carrier. We will ship by P. P. to nearby points on smaller plants in our special designed box with each plant fitting in its own compartment in a band of moist peat moss just as it has been growing. Railway Express on all plants over 6 inches.

BALLED AND BURLAPPED PLANTS—All our plants have a ball of peat that insures a healthy traveling condition, and it is not necessary to have them Balled and Burlapped.

TERMS—Please send cash, check, or money order with your order. Because of the perishable nature of the materials, no C. O. D. orders can be accepted. After your order has been placed, please do not ask us to change or cancel it. During the shipping season several thousand orders are handled, and it is impossible to look for any one particular order without spending hours of time. Please give us a few day's notice in our busy season, so we can have your order ready if you are calling for it at the Nursery. All orders are taken on the condition that we are not sold out when your order arrives. Please name some substitutes. We are not responsible for future orders booked with us if we have crop failures.

AZALEA PRICE LIST

ALL PLANTS PRICED AT THE NURSERY—Packing free. Postage, express, or delivery at cost.

	Prices per plant
BL 6—4 to 6 inches, width, pruned twice	.90
BL 8—6 to 8 inches, width, pruned thrice	1.25
BL 10—8 to 10 inches, width, very heavy branched	1.75
BL 13—10 to 12 inches, width, very heavy branched	2.25
BL 16—12 to 15 inches, width, very heavy branched	3.00
BL 30—15 to 18 inches, width, very heavy branched	4.00
BL 45—18 to 24 inches, width, very heavy specimens	5.50

All orders to be delivered in Maryland or D. C., add 2% Sales Tax. This is a must. Your order will not be delivered until Tax is paid.

PLEASE NOTE: on all orders of less than \$5.00 add .50 handling charge. Sizes available now listed under each variety, subject to prior sale.

The above prices apply to all Azaleas unless otherwise noted in catalog. As we do a cash with order business only, all packing is done free of charge. Shipped Express Collect, except 4 to 6 inch size which is prepaid east of Mississippi.

SEE YELLOW PAGE FOR OUR SPECIAL OFFERS

Special Azalea Collection Offers

ALL EVERGREEN VARIETIES

Below we have made up several types and sizes of Azalea Collections to give you the best in plants available and also cover many varieties of our selection. These collections are designed to give you a maximum in variety of colors, and time of bloom at a minimum of expense. Here is a chance to make a mass planting of Azaleas or to naturalize your woodland with growing beauty. You will not be disappointed. Orders taken for collections on Advance Notice Only. Our Selection. All Plants Labeled.

Each year we have many Azaleas in all the finer varieties, that are too few of a variety to pay us to catalog and describe. This Collection is a give-away, for all plants are labeled and you can check for descriptions in last spring's catalog or the Azalea Handbook. Please don't write to us for descriptions at this low price; the office is too busy at this time of the year.

These plants will be all different and of our selection as to variety and color of each. All labeled as to name. Shipped Express Collect.

ORDER BY OFFER NUMBERS

Your Selection of colors from the five color ranges below:

Our Selection of varieties in the Glenn Dale Hybrids; excepting where you order all of one color, then we have to double up on varieties.

How is that for giving you a break on Collections?

1—Whites and Whites with color variations

2—Reds, Orange Reds, Salmon Reds

3—Salmons

4—Lilac, Lavender and Purples

5—Pinks, Rose Pinks

Following are a Few Glenn Dale Collections in larger sizes available Spring and Fall at anytime. Our Selection. Shipped Prepaid, Packing Free.

10—All different, 4 to 6 inch, width, twice transplanted, labeled.

(Offer A-53-F-5) 8.00

25—All different, 4 to 6 inch, width, twice transplanted, labeled.

(Offer A-53-F-6) 19.00

50—All different, 4 to 6 inch, width, twice transplanted, labeled.

(Offer A-53-F-7) 35.00

Landscape Collection Available Spring & Fall

**Glenn Dales, Gables and Kurumes. Our Selection
Shipped Express Collect, Packing Free**

10—All different, 10 to 12 inch, width, well budded plants, labeled.

(Offer A-53-F-8) 21.25

25—All different, 10 to 12 inch, width, well budded plants, labeled.

(Offer A-53-F-9) 54.00

ORDER BY OFFER NUMBERS

HOLLY COLLECTION

10—All different, 5 inch Pot size, twice transplanted. Labeled. 1 Male,
9 Females. (Offer H-53-F-1) 18.50

20—Plants, 2 each, 5 inch Pot size, twice transplanted. Labeled. Giving
you 10 Varieties. 2 Males, 18 Females. (Offer H-53-F-2) 34.75
Our Selection. Shipped Prepaid.

HOLLY COLLECTION DELUXE

10—All different or alike, Ilex 10 to 18 inch, height, selected from catalog,
which are priced at 3.00 each. All labeled.
Your Selection 25.00. Express Collect. (Offer H-53-F-3)

ALL EVERGREEN SPECIAL

This Collection of 20 different types of Evergreen Plants, all of which
are the Aristocrats of the Evergreen World; will someday give you fine
specimen plants to use in your garden or around your home.

20—All different, 3 to 5 inch, height, once transplanted in a 2½" band,
labeled. (Offer E-53-F-1) 8.00 P.P.

Our Selection. Shipped Prepaid East of Mississippi. Please add 10%
West of Mississippi.

EVERGREEN COLLECTION DELUXE

10—All different or alike; Evergreens, Selected from catalog which are
priced at 3.00 each. All labeled. Your Selection. 25.00 Express Collect.
(Offer E-53-F-2)

YEW COLLECTION

A Taxus or Yew Special

We have picked 10 of what we think are the best in Taxus and are
growing them here at Ten Oaks, for future plants in landscape sizes. If
you are interested in growing it yourself for some nice specimens in five or
six years or to sell to your neighbor at a fair profit, here is a chance for you
to get started inexpensively.

10—All different, 3 to 5 inch, height, once transplanted in a 2½" band,
labeled. (Offer T-53-F-1) 4.50 P.P.

20—Plants, 2 each of a variety, giving you 10 varieties, 3 to 5 inch, height,
once transplanted in a 2½" band, labeled. (Offer T-53-F-2) 8.00 P.P.
Our Selection.

TEN OAKS NURSERY & GARDENS

Incorporated

CLARKSVILLE, MARYLAND

Save Up To 60%

by planting yourself. We are open seven days a week during the planting season in Spring and Fall as many people do their own planting and can only get off on Saturdays and Sundays. If you feel you cannot plant yourself we will do it for you at an additional 60% to all prices in the catalog. This 60% includes composted soil under your plants, fertilized, and mulched with Peat Moss. Also this includes a guarantee against our workmanship and plant defects for a period of 90 days. The above applies to a minimum order of \$25.00 within a 30 mile radius of the Nursery. Orders amounting to 100.00 or more the service charge will be 40% plus catalog prices.

Local Deliveries for customers living within approximately 30 miles of our Nursery on days we have deliveries in that particular direction and if the size of the order warrants it. DELIVERIES OUTSIDE of 30 mile area at cost.

For those customers planting for themselves we have Prepared Compost bagged, and Baled Canadian Sphagnum Peat Moss available at current prices. Also we carry a balanced Azalea Food, Acid forming in the Spring. Also a prepared organic food for late Fall use and a supplement for your Azalea Food in the Spring. **DO NOT FEED AFTER JUNE 15th.**

Successful Culture For All Acid Loving Plants

All Acid Loving Plants Azaleas, Rhododendron and most all that hold their leaves over winter

SOILS AND ITS PREPARATION—Soils good for growing azaleas and their companions occur naturally in many places; in fact, it is borne out that by far the greater proportion will produce good plants with little preparation. Where soils are not suitable, there is usually no great difficulty in making them so without much trouble or expense. Soils suitable for azaleas should be in good mechanical condition, open and friable; it should be acid, well drained, moist, and furnished with organic matter in quantities.

All that is necessary in preparing for the planting is to see that drainage is adequate—where water does not stand on top of the ground for hours after a rain-storm is generally a well-drained place. Next is to see that the soil is proper; for the very best results, we dig the hole that is to receive the plant twice as deep and twice as wide as the nursery ball on the plants, then cart away all the soil and make up the soil that we are going to plant the plants with, as follows: **one part peat moss, one part coarse sand, one part good garden soil**, mixing with this, half a handful of cottonseed meal, or a good special azalea fertilizer, not both. When this is thoroughly mixed, use it to plant your plants with entirely, both under and around the plant, watering well as you fill with soil to the level of the ball; never plant deeper than it was in the nursery. If your soil is sandy, leave out sand in your mixture; if your soil is sticky clay, make your hole larger, so you may have a larger amount of the proper soil mixture around your plant. When the plants are completely planted and thoroughly watered, mulch the top of the ground with four or five inches of peat moss to keep the ground cool, moist, and acid; add to this mulch every Spring and Fall to keep it at this level. Never use lime or allow lime to be used on or near any of these plants. It may mean their death. Well decayed oak leaves, not maple, may be used in place of peat moss if it is handy.

PLANTING BROAD LEAF EVERGREENS—It is easy to plant and at almost any time of the year, except when there is too much frost in the ground, but when you dig them or bring them home from the nursery, get them back into the soil as soon as possible; never let the roots dry out. If you plant in hot or dry weather, it is very wise to shade the plants as well as water for a few weeks until they are well established. The distance apart to plant will depend upon the type you buy; always ask for that information or study the descriptive list.

CULTURE AND CARE—Because the greater mass of roots is found in the top few inches of soil, cultiva-

tion with hoe is not advisable. You will not only cut the roots, but disturb the mulch of peat moss that we advised you to keep around the plants at all times. Pull any weeds that grow by hand, and shake off the peat that clings to their roots. Water heavy during July and August for your azaleas and rhododendron are making buds at that time for the following year. If your water comes from a deep well, and you are in a limestone country, add a little sulphur to your soil every Spring and Fall. Much damage is done by sunshine following a night of low temperature. This can be prevented by shading in the late Fall and Winter with burlap on stakes, lath frames, pine branches, or trimmings from your evergreens. It is important not to feed after June 15th, so as plants will harden up in late summer for the coming winter. Protect all small plants the first winter, with fruit baskets or burlap from winds. A cold frame is still better. A plant is rarely killed after it has become acclimated.

ABOUT BANDED PLANTS—All our 2"-4" plants once again this year are grown in a Cypress Plant Band in pure peat so they handle and ship perfect in our new special box. The plants keep on growing in transit and don't have to be rushed into the ground upon arrival. Do not be dismayed if band is somewhat decayed, it means the roots have made a heavy growth. When ready to plant just give the band a twist and off it comes. Water in the plant well and mulch heavy and keep mulched. Also protect all small plants in the winter from wind and sun and in the summer from the sun by a lath shade or something similar. For best results protect the first two years.

FEEDING—Use only special fertilizers, made by all the reliable firms, for Broadleaf Evergreens only, or cottonseed meal is excellent food. Sprinkle lightly around each plant out to the furthest branch and water heavy at once, twice a year, March and late May or June. Top dressing late in fall with organic helps. Do not disturb the mulch by hoeing or raking the food into the soil.

PRUNING AZALEAS AND RHODODENDRONS—Little pruning is needed for garden azaleas other than to keep the long unsightly shoots off and a regular shaping up according to taste, but all pruning must be done before June 15th, or better still, just after the last flowers have died in the Spring. Christmas is a good time to prune all Holly. Keep Yew pruned heavy twice each year. Mid summer and Mid winter.

PESTS AND DISEASES—Healthy plants that have been well fed and watered have few pests, but if you have neglected the above, here are a few that you may

have to put up with. **White-fly, Lacebug, Leaf Minor, Scale, Thrips, and Red Mites**—are the most common insects to contend with, and these can be controlled by spraying just as soon as the danger of over-night freezing has passed and before plants have blossomed. We use Pest-Hex available from us P. P. 1 lb. 2.25 P. P., 5 lb. 8.65 P. P. A second spraying should be applied after blooming or June 15, a third around July 5, and a fourth may be desirable around August 5. Use a forceful mist and direct under the leaves. **Chlorosis or Yellows**—Dissolve one ounce Epsom salts in two gallons water and sprinkle over the plant and soil thoroughly; two weeks later use one ounce of iron sulphate to two gallons of water the same way, and you will have your plants back to a normal green, if you have kept them well fed and watered. **Fungus Diseases**—Bordeaux or Cuprocide mixtures or Pest-Hex at ten-day intervals take care of most of the fungus. If there are any diseases that you cannot control get in touch with your local Department of Agricultural or State College. They will be glad to assist you.

AZALEA APPRECIATION—If you pick your azaleas in the nursery according to their mature growth, you may have many uses for them. They may be used as foundation plantings, naturalistic plantings in light woodland areas, bank or hillside plantings in mass, hedges or boundary plantings, and footings to evergreen or flowering shrub plantings. Planting in mass always gives a better effect. H. H. Hume says in his latest publication, "While azaleas are exacting in their culture requirements, they are not difficult to grow if their needs are met. Careful attention to details at planting time will make their culture easy in after years. They may be transplanted to gardens in any size from plants a few inches to several feet in height. Their beauty of foliage, flowers, and in many varieties their spicy scent sets them aside as superior plants for the house. For the same uses branches in flower are most desirable, and those who are fortunate can have supplies from their own gardens.

"Under conditions that suit them, azaleas are long-lived plants. . . . There are specimens still in fine condition that were planted in 1848. They have added to their stature and bloomed through the years to make each season a scene of great beauty. Many generations of plants of other kinds have come and gone in other gardens in the century of their growth. Azaleas are plants of a human-lifetime span and more.

"Many commonly used broad-leaved evergreen shrubs are valuable mainly because they are evergreen, but in addition to holding their foliage throughout the year, persistent-leaved azaleas are unsurpassed as flowering shrubs. Any garden well designed and furnished with azaleas immediately is lifted out of the commonplace. There are few uses to which other broad-leaved shrubs are adapted that cannot be filled as well by azaleas."

Because of a complete crop failure on some varieties listed in former years; the old timers will miss them in this year's catalog. We are still testing them all and if they prove their worth will be back in this listing at a later date.

Home Grown. Unless otherwise noted all plants offered in this list or at our nursery are grown by us here in Howard County at an elevation of 545 feet. We buy in no stock from distant points for resale thus giving our customers every possible advantage of getting a top quality plant that is acclimated.

Landscape Design. We would also like to share our twenty-eight years' experience in landscape problems with you. Our Nursery tries to take a personal interest in adding to, or replanting your home. Pencil sketch and estimate furnished with no obligations for this season's planting. We grow many different varieties of Evergreens, Flowering Shrubs, and Shade Trees right here at Ten Oaks. Phone Clarksville 650-J, or visit us near the village of Clarksville in Howard County. It's just off Route 29 at the above village, halfway between Baltimore and Washington. Sign there will direct you. We do our best to make visitors welcome.

Many say it is worth the trip to Ten Oaks just to see the Display Gardens.

We have many varieties of Azaleas and other plants that we do not list because the quantity does not warrant the space.

This is the only catalog we issue. All other items are sold from the Sales Garden or used in Landscape Design work.

THE NEW PEST-HEX. We used it for the past two seasons with very good results so we can recommend it to you. We are handling it for the convenience of our customers in 1 lb. and 5 lb. packages. Write for pamphlet on Pest-Hex if you didn't receive one.

5 lb. Pkg. 8.65 P.P.
1 lb. Pkg. 2.25 P.P.

2 to 4 inch size Azaleas in many more varieties in the Spring catalog.

The Glenn Dale Azaleas

Hardy Evergreen and Semi-Evergreen

These new and beautiful hybrid azaleas were originated by Mr. B. Y. Morrison, and introduced by The Division of Plant Exploration and Introduction Department.

We say, a greater piece of work has never been done for the thousands of people who love azaleas but became discouraged from growing them after a severe cold night followed by a hot day in the late Fall or Spring killed many of their pets.

The Glenn Dale Azaleas, (1) were bred for hardiness in this area of changeable climate, and we have already noticed the lack of bark rupture and bud kill; (2) they were bred for large and varied-colored flowers, and certainly have both, for flowers from two to four inches across are common, and a few come larger; (3) they have been bred for more uses. Their mature growth may be 1 or 2 feet or it may be 6 to 8 feet, enabling us to use them to advantage in many more landscape problems; (4) many gaps have been filled in the azalea-blooming period. We may have Glenn Dales from the middle of April until June in almost a continuous stream of bloom. It is evident if this work of Mr. Morrison's continues, azaleas will be available in years to come that we have never dreamed of. Try a few of the new releases each year and keep your interest with them. We have found, that all Glenn Dale Azaleas are hardy after they get some size and have become acclimated to your area. Protect and care for your young plants, the first winter or two, and they will pay you dividends. Read pages 3 and 4 again. The Spring catalog will have the 2-4 inch size Azalea available in many more varieties. When you receive your Spring catalog, order early as we raise a limited amount of plants and have sold out early both this year and last; thanks to our many fine customers over the 48 states.

Glenn Dale Hybrid Azaleas

Evergreen and Semi-Evergreen

Descriptions by B. Y. Morrison:

Mr. Morrison's descriptions are the only true descriptions of the Glenn Dale Azaleas. They follow word for word as submitted to us.

ALABASTER. Broad spreading habit to about 5 feet. Leaves dark green. Flowers 2 to 4 in head, often grouped, 2 to 2½ inches across, irregularly hose-in-hose, white with very dark flakes of spinel pink. Garden effect white. **Mid-April, early May.** 1940 Release.

ANDROS. Erect to broad spreading to overarching, 5 to 6 feet. Leaves evergreen, medium size. Flowers double usually 2 to 4 in head, freely produced, 2 to 2½ inches across, pure mallow pink. The great beauty of this variety lies in the early bud stages when blossoms resemble rosebuds. **May.** 1949 Release.

4 to 6 inch, .90

ANTHEM. Large, single rose-pink. Morrison description later. 1949 Release.

4 to 6 inch, .90

15 to 18 inch, 4.00

ARCADIA. Strong, rather erect growth to widely spreading crown to 7 ft. Leaves medium green, moderate size. Flowers usually 2 to 3 in a head, 3 inches across, somewhat funnel-shaped, between deep rose pink and rose color. Spots of blotch tyrian rose, showy, anthers brown and filaments tyrian rose. **Late April.** 1949 Release.

4 to 6 inch, .90

10 to 12 inch, 2.25

AVE MARIA. Bush habit tends to low, broad spreading. Leaves dark green. Flowers 2' to 3 in a head, 2½ to 3 inches across, white ground, greenish-yellow blotch, sanded or flaked with Phlox purple, margins ruffled. **Mid to late May.** 1950 Release.

4 to 6 inch, .90

BEACON. Erect to eventually overarch-growth to 5 ft. Leaves rather narrow, dark green. Flowers usually 2 to 3 in a head, 1¾ to 2 inches across, somewhat starry. Flowers almost pure rose doree, but in effect nearly pure red. **Mid-April.** 1948 Release.

4 to 6 inch, .90

BISHOP. Rather erect growth to 5 ft. eventually with broad top. Leaves not over 2 inches long, dark green. Flowers 2 to 5 in a head, the heads sometimes clustered, 1¼ to 1½ inches across, rather symmetrical, margins waved. A rose color self, as the tyrian rose dots of the blotch count rather as a darkening of hue. There is an underlying tone of yellow that enlivens the color. Anthers dark. **Mid to late April.** 1949 Release.

4 to 6 inch, .90

10 to 12 inch, 2.25

BOUNTIFUL. Bush habit rather broad spreading, but probably will reach 4 ft. in height. Leaves medium green, hairy. Flowers 1 to 3 in a head, 3 inches across, frilled, phlox purple, with blotch of tyrian rose dots. (Phlox purple is a lavender pink.) **Early to mid-May.** 1949 Release.

4 to 6 inch, .90

6 to 8 inch, 1.25

10 to 12 inch, 2.25

BUCCANEER. Erect to tall spreading to 5 feet. Leaves medium green. Flowers 2 to 4 in head, freely produced, 2 inches across, a brilliant orange red with darker tone on upper lobe. **Mid-May.** Sunburns in the open. 1940 Release.

4 to 6 inch, .90

CADENZA. Bush habit low and broad spreading but probably up to 4 ft. Leaves medium green. Flowers 1 to 3 in a head, 2 inches across, extremely variable in the same plant. The original seedling plant is a ruffled white, lightly and irregularly flaked with few stripes of Magenta. This is the type propagated. These, like the parent, may throw out self-colored blooms of Rosolane Purple, at times with white center, that should be cut out. **Mid to late May.** 1950 Release.

10 to 12 inch, 2.25

CARMEL. Tall to eventually spreading habit but not over 5 feet. Leaves medium green. Flowers 1 to 3 in head, freely produced, 2 inches across, spinel red with blotch of Indian red dots; carries in garden effect as a brownish red. **Mid-April.** Earlier than Burgundy; larger flowers. 1940 Release.

4 to 6 inch, .90

CARNIVAL. Vigorous, upright to spreading bush to 4 ft. fine evergreen foliage. Flowers usually 2 to 3 in a head, 3½ to 4 inches across, color salmon with orange undertone with heavy dull red blotch on the uppermost lobe. **Mid to late April.** 1948 Release. **10 to 12 inch, 2.25**

CHANTICLEER. Bush habit dense and twiggy, but probably making up to 5 feet in time. Leaves dark green. Flowers 2 to 4 in head, 2 inches across, very abundantly produced, amaranth purple but with more rose red on tube than Campfire, a very brilliant effect. **Mid-May.** 1951 Release. **10 to 12 inch, 2.25**

CHLOE. Growth similar to but better than R. Nucronatum ("Indica alba"), to 5 feet. Leaves medium green, somewhat pubescent. Flowers usually 2 to 3 in head, 2½ to 3 inches across, margins ruffled, brilliant color, tyrian rose with inconspicuous blotch of rose color dots. **Mid-April.** 1951 Release. **4 to 6 inch, .90**

8 to 10 inch, 1.75

CHUM. Bush habit very dense and twiggy, but probably up to 4 ft. in height. Leaves dark green glossy. Flowers 2 to 4 in a head, very abundant, 2 inches across, white with green blotch, striped Eugenia Red. Produces some shoots with red flowers that should be cut out. **Mid-May.** 1950 Release. **4 to 6 inch, .90**

COLLEEN. Rather open Kaempferi-like habit to 7 feet. Leaves medium green. Very floriferous; flowers usually 3 to 10 in head, 2 inches across, geranium pink, blotches variable. **Late April, early May.** 1951 Release. **4 to 6 inch, .90**

CONSUELA. Vigorous, erect, somewhat spreading growth to 6 ft. Leaves narrow, medium green. Flowers usually 2 to 3 in a head; 2 to 3 inches across, slightly paler than rose color, lightening to deep rose pink in center. Blotch not conspicuous, of small rose color dots. **Late April.** 1949 Release. **4 to 6 inch, .90**

10 to 12 inch, 2.25

COPPERMAN. Growth dense, spreading to 4 ft. Foliage dark green, rather narrow leaves. Flowers 1 to 2 in a head, 2½ to 3 inches across, rather flat faced, good substance and splendid form with broad overlapping lobes, begonia rose, shaded almost pure orange, blotch conspicuous but most like a heavy wash of rose color, dots not visible. **Mid to late May.** 1948 Release. **6 to 8 inch, 1.25**

CORALIE. Erect to eventually overarching growth to 5 ft. Fine narrow dark green leaves. Flowers usually 2 to 4 in a head, 1½ to 2 inches across, somewhat irregularly hose-in-hose. Eosin pink, flushed rose doree, with conspicuous Tyrian rose blotch, carries as brilliant deep salmon pink. **Early May.** 1948 Release. **10 to 12 inch, 2.25**

CORAL SEA. Bush habit broad spreading, probably not over 4 ft. Flowers 1 to 3 in a head, freely produced, usually not over 2½ to 3 inches across, between pale Amaranth Pink and Amaranth Pink with few but very distinct Tyrian Rose dots in blotch, which is showy. **Mid-May.** 1950 Release. **4 to 6 inch, .90**

CORSAIR. Vigorous upright growth to 5 ft. Leaves medium green. Flowers usually 2 to 3 in a head, 2½ inches across. Very brilliant in effect. Nopal red, with large blotch made up of small dots of Tyrian rose, that give a brownish effect over the Nopal red. **Late April.** 1948 Release. **4 to 6 inch, .90**

15 to 18 inch, 4.00

CRANFORD. Spreading growth with long ascending shoots particularly while young, to 3 feet. Leaves medium green. Flowers 1 to 2 in head, 3 inches across, deep rose pink, the blotch not conspicuous because of dots only slightly darker than tone. **Late May, early June.** 1951 Release. **4 to 6 inch, .90**

CYGNET. Bush habit very dense and twiggy, but possibly up to 3 or 4 ft. in height. Leaves medium green. Flowers 1 to 3 in a head, very freely produced, to make sheets of bloom, 1½ inches across, white with pale yellow blotch. **Early to mid-April.** 1949 Release. **4 to 6 inch, .90**

CYTHEREA. Bush rather broader than tall, but probably up to 4 ft. Leaves small, dark green. Flowers 1 to 2 in a head, freely produced, very fine form, rose pink. **May.** 1949 Release. **4 to 6 inch, .90**

15 to 18 inch, 4.00

DELOS. Erect to spreading, somewhat over-arching habit; like Andros in all details except color of flower. In this case the color is rose pink, a deeper color than that of Andros but just as rose-like in the bud stages, 2½ inches double flowers, freely produced. **May.** 1949 Release. **4 to 6 inch, .90**

8 to 10 inch, 1.75

DEMURE. Erect to finally over-arching habit to 5 ft. Leaves fine, dark green. Flowers usually 2 to 3 in a head, 2 inches across, slightly paler than rose color dots of rose red. **Early May.** 1950 Release. **12 to 15 inch, 3.00**

DIMITY. 2 inch flowers, white striped, spirea red, single. **Early.** **15 to 18 inch, 4.00**

DOWAGER. Bush habit low, compact and spreading, but probably up to 4 ft. in time. Leaves dark green, glossy. Flowers 2 to 4 in a head, 3 inches across, white, flaked and striped magenta. Cut out all shoots showing self-colored magenta flowers. **Mid-to Late May.** 1950 Release. **4 to 6 inch, .90**

EGOIST. Bush habit broad spreading, but probably never over 5 feet. Leaves dark green. Flowers 1 to 3 in head, $2\frac{1}{2}$ to 3 inches across, a very fine white with a few stripes and much sanding of phlox purple. Cut out any branch sports of purple color. **Mid to late May.** 1951 Release.

4 to 6 inch, .90

EMBLEM. Growth habit with rather erect branching, bush up to 6 feet. Leaves dark green. Flowers 1 to 3 in head, heads somewhat grouped, $1\frac{1}{2}$ to 2 inches across, regular in form, between scarlet red and scarlet. Blotch rose red but not conspicuous counting as deep shading. **Late April.** 1951 Release.

10 to 12 inch, 2.25

EVEREST. Bush habit broad and rather spreading, but may reach up to 5 ft. in height. Leaves medium green. Flowers 1 to 3 in a head, 2 inches across, white, pale chartreuse blotch. Very floriferous. **Early to mid-May.** 1949 Release.

4 to 6 inch, .90

FAVORITE. Erect to eventually overarchin habit, to 5 ft. Leaves small pointed dark green. Flowers usually 2 to 3 in a head, $1\frac{1}{4}$ to $1\frac{1}{2}$ inches across irregularly hose-in-hose. Geranium pink with heavy blotch of nopal red on upper lobe. The orange undertone of the flowers becomes paler as the flower ages. **Late April to early May.** 1948 Release.

4 to 6 inch, .90

FESTIVE. Erect and somewhat spreading growth to 6 ft. Flowers usually 2 to 4 in a head, the heads often clustered. Flowers 2 to $2\frac{1}{2}$ inches across, pure white with no blotch, freely sanded and occasionally striped with dull rose (between spinel red and rose color Ridgeways). Effect from distance is flesh white. **Mid April.** 1948 Release.

8 to 10 inch, 1.75

GLACIER. Vigorous, erect to spreading growth up to 5 ft. with very handsome lustrous dark green leaves. Flowers usually are borne 2 to 3 in a head, $2\frac{1}{2}$ to 3 inches across, shining white with a faint green tone. **Late April blooming.** As fine in quality as some of the "Belgian" Azaleas. 1948 Release.

4 to 6 inch, .90

6 to 8 inch, 1.25

10 to 12 inch, 2.25

GUERDON. Bush low and broad spreading, probably not much over 2 feet. Leaves dark green. Flowers 1 to 3 in head, $2\frac{1}{2}$ to 3 inches across, many with 6 lobes, light mallow purple, tyrian rose blotch, orange tube. **Mid-to late May.** 1951 Release.

4 to 6 inch, .90

HELEN CLOSE. Bush habit very dense and twiggy, forming rounded crown as in Belgian Azaleas, to 4 ft. Leaves rather small, dark green. Flowers very abundant, 2 to 4 in a head, $2\frac{1}{2}$ to 3 inches across. White, very pale yellow blotch, fading to pure white. **Early to mid-May.** 1949 Release.

8 to 10 inch, 1.75

ILLUSION. Dense evergreen bush, upright to spreading to 4 feet. Flowers usually 2 to 3 in head, $2\frac{1}{2}$ inches across, somewhat starry, Deep Rose Pink with Tyrian Rose blotch. **Late April.**

4 to 6 inch, .90

12 to 15 inch, 3.00

JAMBOREE. Erect, somewhat spreading habit to 5 ft. Leaves medium green. Flowers usually 2 to 3 in a head, 2 to $2\frac{1}{2}$ inches across. Color carries as a little lighter than scarlet red but is not as light as Rose Doree, blotch not conspicuous. **Late April.** 1950 Release.

4 to 6 inch, .90

JEANNIN. Bush habit, wide spreading rather than upright, densely twiggy, but eventually up to 5 ft. Leaves medium to dark green. Flowers 1 to 3 in a head, heads often clustered, freely produced, $1\frac{1}{2}$ to 2 inches across. **Mid to late April.** Deep Rose. 1948 Release.

8 to 10 inch, 1.75

15 to 18 inch, 4.00

JESSICA. Spreading habit to 4 ft. Leaves dark green. Flowers 1 to 2 in a head, freely produced, 3 inches across. Deep rose pink, blotch made up of few distinct dots of Tyrian rose. **Mid to late May.** 1949 Release.

4 to 6 inch, .90

LITANY. Bush with dense twiggy habit, generally broader than tall, but up to 5 feet. Leaves narrow, dark green. Flowers 1 to 3 in head, freely produced, excellent rounded form, 2 to $2\frac{1}{2}$ inches across deep lavender pink, heavy amaranth blotch. **Late April, early May.**

12 to 15 inch, 3.00

15 to 18 inch, 4.00

LUSTRE. Bush erect but somewhat spreading to not over 5 feet. Leaves dark green, glossy, narrow. Flowers usually two in head. 2 to $2\frac{1}{2}$ inches across, very round and regular in form but lobes not imbricated, practically a self. Rose color. **Early May.**

12 to 15 inch, 3.00

15 to 18 inch, 4.00

LYRIC. Broad spreading rather than tall, to 5 feet. Leaves medium green. Flowers 1 to 3 in head, $2\frac{1}{2}$ to 3 inches across, white with chartreuse blotch. Heads are sometimes grouped so that clusters up to 14 flowers may appear on young shoots. **Mid-May.** 1951 Release.

8 to 10 inch, 1.75

MADERIA. Vigorous, erect growth to eventually spreading crown to 7 ft. Leaves medium green, not large. Flowers usually 2 to 3 in a head, 3 inches across, rather funnel-shaped, between deep rose pink and rose color, spots of blotch Tyrian Rose, showy, anthers brown, filaments Tyrian Rose. **Late April.** 1950 Release.

10 to 12 inch, 2.25

MADRIGAL. Vigorous, rather spreading bush to 3½ feet, with slender quite evergreen foliage. Flowers usually 2 to 3 in head, 3½ inches across, pale Rose pink with a blotch slightly deeper in color that extends beyond the uppermost lobe on to the two side lobes. **Mid to late April.**

4 to 6 inch, .90

MARY MARGARET. Spreading habit to 4 ft. Leaves dark green. Flowers 1 to 2 in a head, freely produced, 3 inches or more across, broad lobes well imbricated, rose doree, with very heavy blotch on upper lobe made up of small dots of amaranth purple. Flower carries as a dull orange. **Late May. 1949 Release.**

4 to 6 inch, .90

NOCTURNE. Bush habit broad and spreading, but ing, but may reach up to 5 ft. in height. Leaves medium green. Flowers 1 to 3 in a head, 3 inches across, between Rhodamine Purple and Aster Purple, blotch Tyrian Rose, tubes scarlet, a very brilliant clone. **Early to Mid-May. 1950 Release.**

8 to 10 inch, 1.75

ORISON. Bush habit broad spreading, but probably up to 5 ft. in time. Leaves medium green. Flowers 1 to 3 in a head 2½ inches across, white flaked with magenta. **Late May. 1950 Release.**

6 to 8 inch, 1.25

PAPRIKA. Bush habit very compact and dense, but gradually building up to perhaps 5 feet. Leaves deep green, glossy. Flowers 1 to 3 in head, very freely produced, 2 inches across, white with eugenia red stripes and flakes, green blotch. Cut out all branches that show solid red flowers. **Mid-May. 1951 Release. Available 1953.**

4 to 6 inch, .90

PARADISE. Erect to eventually overarching growth to 5 ft. Leaves dark green, glossy, small. Flowers 2 to 3 in a head, 2 inches across, hose-in-hose, rose doree, with wide blotch of Tyrian rose dots. **Late April, early May. 1949 Release.**

12 to 15 inch, 3.00

PETER PAN. Bush wide spreading and over-arching to 5 ft. Leaves narrow, glossy, dark green. Flowers 2 to 4 in a head, freely produced, 1½ to 1¾ inches across, somewhat starry, deep rose pink, almost white in center, blotch not conspicuous. **Late April, early May. 1949 Release.**

4 to 6 inch, .90

PICADOR. 2½ inch flowers, single delft rose with blotch of darker spots. **Mid-Season.**

10 to 12 inch, 2.25

PINKIE. Rather wide branching habit but ascending to 6 ft. Leaves medium green, rather broader than most. Flowers 1 to 3 in a head, abundantly produced, 2½ inches across, deep rose pink, blotch of Tyrian Rose dots, faint yellow suffusion which makes the color particularly brilliant. **End of April, early May. 1950 Release.**

4 to 6 inch, .90

PIRATE. Erect to finally overarching habit to 6 ft. Leaves small, dark green. Flowers usually 2 to 3 in a head, 1¾ to 2 inches across, irregularly hose-in-hose, a little lighter than scarlet red, with very heavy blotch of nopal red on upper lobe spreading over adjoining two lobes. **Late April, early May. 1949 Release.**

4 to 6 inch, .90

PRELATE. Bush with strong ascending branches to 6 feet, becoming dense and well filled out when mature. Leaves medium to dark green. Flowers 3 in head, some with six petals, heads sometimes grouped, 2½ inches across, freely produced, deep rose pink, few tyrian rose dots. **Late April. 1951 Release.**

4 to 6 inch, .90

PROGRESS. Bush habit very dense and twiggy, but slowly building up to 4 ft. Leaves medium green. Flowers 1 to 3 in a head, 2 inches across, mallow purple darkening to rhodamine purple. Some variation toward white at centers. Stamens far exerted. **Early to mid-May. 1949 Release.**

4 to 6 inch, .90
10 to 12 inch, 2.25
12 to 15 inch, 3.00

PRUDENCE. Erect to eventually overarching habit, to 5 ft. Leaves dark green, acuminate. Flowers usually 2 to 4 in a head. **Late April to early May. 1948 Release.**

4 to 6 inch, .90
12 to 15 inch, 3.00

PUNCHINELLO. Bush habit rather broad spreading, but probably not over 4 ft. Leaves dark green. Flowers 1 to 3 in a head, 3 to 3½ inches across, frilled, white sanded Rosolane Purple, blotch green. **Mid-May. 1950 Release.**

4 to 6 inch, .90

REFULGENCE. As compared to most, rather dwarf, twiggy habit, with heavy, dark green, "macrantha" type foliage. Flowers 1 to 2 in head, 1½ to 1¾ inches across, rose color (brighter in effect) with blotch of tyrian rose that appears like deep shading in corolla, faint yellow tinge at base of corolla. **Mid-to late April. 1951 Release. Available 1953.**

4 to 6 inch, .90

RISING SUN. Rose red color. Description later. **8 to 10 inch, 1.75**

ROBINHOOD. Vigorous, rather upright growth to 5 ft., leaves only semi-evergreen in this climate. Flowers in mid to late April. Usually 2 to 3 in a head, 3½ to 4 inches across. Deep rose red color (Ridgeways Tyrian Purple) with heavy dotting of rather small points to make the upper lobe. Pistil and filaments are scarlet. **1948 Release.**

12 to 15 inch, 3.00
15 to 18 inch, 4.00

ROSALIE. Spreading habit to 4 ft. Leaves dark green. Flowers usually 1 to 2 in a head, freely produced, 3 inches across, broad lobe. Alizarin pink washed over with rose doree, blotch of shaped dots of Tyrian rose. Much more brilliant than terms suggest. Mid to late May. 1949 Release.

4 to 6 inch, .90

ROSETTE. Vigorous, rather upright growing bush to 4 ft. Leaves a little more than semi-evergreen in this climate. Flowers large, usually 1 to 3 in a head, 3½ to 4 inches across, double, sometimes only semi-double. In the latter case, the stamens bear bits of petoloid tissue. Color: violet red. Mid April. 1948 Release.

12 to 15 inch, 3.00
15 to 18 inch, 4.00

ROUNDELAY. Bush habit tends to be low, broad spreading, up to 3 ft. Leaves dark green. Flowers 2 to 3 in a head, 3 inches across, pure white with few stripes of Phlox purple. Late May. 1950 Release.

8 to 10 inch, 1.75

SAMITE. Vigorous, upright, rather open habit to 7 feet. Leaves medium green. Flowers usually 2 to 4 in head, but heads often clustered. Flowers 2 inches across, irregularly hose-in-hose, pure white. Early April before most whites. 1940 Release.

4 to 6 inch, .90

SCOUT. Bush rather broader than tall, but probably up to 5 ft. Leaves medium to dark green. Flowers usually 1 to 2 in a head, freely produced, 2 inches across. Pale Rose. Late April. 1949 Release.

4 to 6 inch, .90
12 to 15 inch, 3.00

SEAFOAM. Bush habit rather broad but low growing, possibly not over 3 ft. in height. Leaves medium green. Flowers 1 to 3 in a head, 3 inches across, white, frilled, chartreuse yellow in throat. Mid-May. 1950 Release.

4 to 6 inch, .90

SHIMMER. Bush habit broad spreading, but probably to 5 ft. in height. Leaves medium green. Flowers 1 to 3 in a head, 2 inches across, white, sanded, flaked, striped rose color. Cut out all branches with self rose-colored flowers. Mid-May. 1949 Release.

4 to 6 inch, .90
12 to 15 inch, 3.00

SNOWCLAD. Bush habit broad spreading but may reach up to 5 ft. in height. Leaves medium green. Flowers 1 to 3 in a head, 3 to 3½ inches across, ruffled margins, white with chartreuse blotches. Mid-May to later. 1950 Release.

4 to 6 inch, .90
8 to 10 inch, 1.75

SNOWSCAPE. Erect growth with broad spreading top when mature, to 6 ft. Leaves green, rather narrow and pointed. Flowers generally 3 to 5 in a head, rather trumpet shaped, 2 inches across, greenish white, no blotch. Late midseason after most whites have passed. End of May. 1949 Release.

4 to 6 inch, .90

SONATA. Bush habit, broad spreading and perhaps to 5 ft. in height. Leaves medium green. Flowers 1 to 3 in a head, 2½ inches across, ruffled white, lightly sanded and with a few stripes from Phlox purple to true purple. Occasional branches of self purple flowers that should be cut out. Early to Mid-May. 1950 Release.

6 to 8 inch, 1.25

SOUVENIR. Erect to finally over-arching growth to 5 feet. Fine dark green foliage. Flowers usually 2 to 4 in head, 1¼ inches across. Irregularly hose-in-hose, Eosin Pink with Begonia Rose blotch that gives deeper tone to the Salmon Pink effect. Late April.

8 to 10 inch, 1.75

SUWANEE. Erect to somewhat spreading habit to 5 feet. Leaves dark green. Flowers usually 2 to 3 in head, 3 inches across, Rose Pink, dots in blotch are u shaped, distinct and showy, Tyrian Rose. Brilliant. Late April.

15 to 18 inch, 4.00

SWAGGER. Bush dense and twiggy, but up to 4 ft. in height. Leaves dark green, glossy. Flowers 2 to 4 in a head, 2½ inches across, white sanded and striped with Jasper Red. Mid May. 1950 Release.

6 to 8 inch, 1.25

TAFFETA. Bush habit rather broad spreading, very twiggy, but probably not over 4 ft. Leaves dark green. Flowers 1 to 3 in a head, 2 to 2½ inches across, frilled, white sanded and striped Rosolane purple. Mid-May. 1950 Release.

12 to 15 inch, 3.00

TEMPLAR. Erect to wide spreading, bush habit, to 6 feet. Leaves narrow to long, semi-deciduous. Flowers usually 2 to 3 in head, 2¾ to 3 inches across, wide spreading, well imbricated almost white at base of tube, light mallow purple, blotch rhodamine purple, but not showy. Mid-April. 1951 Release.

6 to 8 inch, 1.25

THISBE. Bush habit, broad and overarching to 5 ft. Leaves narrow, dark green, glossy. Flowers 2 to 4 in a head, often grouped, 1 to 1½ inches across. Hose and Hose. Geranium pink with blotch of begonia pink. Early May. 1949 Release.

6 to 8 inch, 1.25

TREASURE. Vigorous growth more or less like that of *Mucronatum* but more spreading and with more and heavier leaves. The flowers are usually 2 to 3 in a head, $3\frac{1}{2}$ to $4\frac{1}{2}$ inches across. The developing buds are tinted with cameo pink, but this fades out as the flower opens leaving only a suggestion of pink on the margin of the lobes and in the blotch. Should replace *Indica Alba* in most plantings. Truly a treasure. **Mid April.** 1948 Release.

4 to 6 inch, .90
8 to 10 inch, 1.75

TROPHY. Bush habit broad spreading, but probably not over 4 ft. Leaves medium green. Flowers 1 to 3 in a head, 3 to $3\frac{1}{2}$ inches across, pale Mallow pink, the showy blotch made up of clear Tyrian Rose dots. **Mid-May.** 1950 Release.

6 to 8 inch, 1.25

VESPERS. Bush habit rather broad spreading, but probably not much higher than 5 ft. Leaves medium green. Flowers 1 to 3 in a head, 3 inches across, frilled, white, chartreuse throat, only an occasional flower with Mallow purple stripes. **Mid-May.** 1950 Release.

6 to 8 inch, 1.25

VINTAGE. Vigorous, rather wide-spreading growth to 4 ft. Leaves rather broad, glossy, dark green. Flowers usually 2 to 3 in a head, 2 inches across, rounded. Pale roselane purple. No blotch. **Late April.** 1949 Release.

6 to 8 inch, 1.25
10 to 12 inch, 2.25

VIOLETTA. Erect to wide spreading to 4 ft. Leaves fine dark green. Flowers usually 2 to 3 in a head, 2 to $2\frac{1}{4}$ inches across, light mallow purple, blotch rhodamine purple. **Mid-April.** 1949 Release.

4 to 6 inch, .90
6 to 8 inch, 1.25
12 to 15 inch, 3.00

WARRIOR. Strong, rather erect, growing to 7 feet. Leaves medium green. Flowers usually 3 to 5 in head, 2 inches across, somewhat "hooded", mallow purple; blotch rose red covering upper lobe and part of two adjoining lobes gives great warmth. **Late April.**

6 to 8 inch, 1.25
8 to 10 inch, 1.75

WAVELET. Bush habit broad and spreading up to 5 ft. in height. Leaves medium green. Flowers 1 to 3 in a head, $2\frac{1}{2}$ inches across, but rather bowl-shaped. White with yellow blotch. **Mid-May.** 1950 Release.

8 to 10 inch, 1.75

WINEDROP. Bush broad spreading, but probably never over 5 feet. Leaves dark green. Flowers 1 to 3 in head, $2\frac{3}{4}$ to 3 inches across, white sanded and striped with phlox purple. **Mid- to late May.** 1951 Release. Available 1953.

4 to 6 inch, .90

YOUTH. Bush rather like that of an excellent *R. Mucronatum*, spreading rather than tall, but up to 5 ft. Leaves medium to dark green, only somewhat pubescent. Flowers 1 to 3 in a head, freely produced, 2 inches across, liseran purple with very little dotting in the blotch area. **Late May.** 1949 Release.

8 to 10 inch, 1.75

Don't be disappointed if we are limited or sold out on any of the new Glenn Dale Hybrids when you give your order. Leave your order with us, along with a deposit, and we will see that you get your plants as soon as possible. You know these Glenn Dales are scarce yet. We will have larger plants in the future. Bear with us and we will have all you want as soon as we are able to produce them with our small force of trained help. Thank you for your wonderful cooperation last year.

Many varieties available in the 2 to 4 inch size in the Spring catalog.

New U.S.D.A. or Yerkes Hybrids

We have the U.S.D.A. Azaleas on test and available as 2 to 4 plants in spring of 1954.

Some very hardy and wonderful Hybrids are coming from Beltsville and many more are under test. Watch out for these; we have found them extremely hardy here under our severe tests. Mr. Robert Prior now in charge of this job of breeding Azaleas at Beltsville is doing an excellent job and is also turning out some fine hybrids. These Azaleas are in a class entirely separate of the Glenn Dales and are not to be confused.

Kurume Azaleas

Flowers of the Kurume Azaleas are small when compared to others, but they make up in numbers what they lack in size. Specimens in full bloom are often so covered with flowers that their leaves cannot be seen. Some are single, others are hose-in-hose. Colors in Kurume Azaleas are rich and varied; for the most part, they are self-colored. Slow growers but in years may reach 3 to 4 feet. They are well adapted to forcing and make showy pot plants.

Amonena. H. & H. Purple, very hardy.

10 to 12 inch, 2.25
15 to 18 inch, 4.00

Carminata Splendens. Single. Red, good.

10 to 12 inch, 2.25
12 to 15 inch, 3.00

Coral Bells. Hose-in-hose. Shell pink, shaded darker. Very showy and compact. **Early.**

12 to 15 inch, 3.00

Daybreak. Single. Pink.

12 to 15 inch, 3.00

Flame. Single. Red.

12 to 15 inch, 3.00

We have seen nothing better than Glenn Dale Azaleas.

Hino-Crimson.	Single. Brilliant red, nonfading. Early.	
	4 to 6 inch, .90	
	8 to 10 inch, 1.75	
Hinodegiri.	Single. Brilliant scarlet. Heavy bloomer. Early.	
	4 to 6 inch, .90	
	6 to 8 inch, 1.25	
	8 to 10 inch, 1.75	
	10 to 12 inch, 2.25	
Pink Pearl.	Hose-in-hose. Salmon-rose, with light centers. Early.	
	6 to 8 inch, 1.25	
Sherwoods Red.	Single, red. A new hybrid of Hinodegiri. Same growth. Early.	
	4 to 6 inch, .90	
	6 to 8 inch, 1.25	
Snow.	Hose-in-hose. White, with a very compact growth. Early.	
	4 to 6 inch, .90	
	6 to 8 inch, 1.25	
	8 to 10 inch, 1.75	
	12 to 15 inch, 3.00	
Sweetbriar.	Pink. Early.	
	12 to 15 inch, 3.00	

Azalea Miscellaneous Hybrids and Others

Beni-Kirishima.	Do. orange red. Late.	
	6 to 8 inch, 1.25	
	8 to 10 inch, 1.75	
	10 to 12 inch, 2.25	
Sherwoodi.	Single. Large. Rose-orchid. Heavy grower. Early.	
	8 to 10 in., 1.75	
	10 to 12 inch, 2.25	
	12 to 15 inch, 3.00	
J. T. Lovett.	Single. A beautiful claret-rose. Dense. Low grower. Late.	
	6 to 8 inch, 1.25	
Maxwelli.	Single. Large rose-red flowers. This is the true type of Maxwelli. Mid-season.	
	8 to 10 inch, 1.75	
	12 to 15 inch, 3.00	
	15 to 18 inch, 4.00	
Macrantha.	Single, salmon red.	
	4 to 6 inch, .90	
Macrantha.	Single. Purple.	
	15 to 18 inch, 4.00	
Pink Progress.	DeWilde Hybrid. Single. Cerise Pink. Very hardy.	
	12 to 15 inch, 3.00	
Red Progress.	DeWilde Hybrid. Red. Very hardy.	
	12 to 15 inch, 3.00	
Yaeshayo.	Flaming red. Early and very bright. Tall. 8 to 10 inch, 1.75	

Pericat Hybrids

As a whole the Pericats are difficult to procure except for a few clones. Excellent to force, good form and clear in color. Originated by Alphonse Pericat of Pennsylvania.	
Chas. Grakelow. Spreading, medium height, dense, Late midseason. Deep red.	4 to 6 inch, .90
Dawn. Spreading, medium height, dense. Late midseason. Hose-in-Hose. 2½" flower Phlox pink. White center.	4 to 6 inch, .90
Emile Russave. Spreading, medium height, dense. Late midseason. Semi-Double, frilled 2½" flower. Red.	4 to 6 inch, .90
Flanders Field. Spreading, medium height. Late midseason. Single. 2¼" flower. Blood red, with darker blotch.	4 to 6 inch, .90
Gardenia Supreme. Spreading, medium height, dense. Early midseason. Semi-Double 1½" flowers. White with Violet Red blotch.	4 to 6 inch, .90
Harmony. Spreading, medium height.	4 to 6 inch, .90
Mme. Pericat. Spreading, medium height, dense. Late midseason. Hose-in-Hose. 2½" flowers. Violet Rose, with white center.	4 to 6 inch, .90
Morning Glow. Spreading, medium height, dense. Late midseason. Hose-in-Hose. 2½" flowers. Phlox Pink, with white center, darker blotch.	4 to 6 inch, .90
Sweetheart. Spreading, medium height. Early midseason. Hose-in-Hose. Frilled. Orange Red with darker blotch.	4 to 6 inch, .90

Mayo Hybrids

Introduced by R. P. Mayo. Plants bloom just after the Kurumes and are a very beautiful group.	
Maidens Blush. Spreading, medium height. Single, petaloid sepals. Red.	4 to 6 inch, .90
Sachen.	4 to 6 inch, .90
Salmon Supreme. Spreading medium height. Good Salmon Pink.	4 to 6 inch, .90
Spring Dawn. Upright, medium height, dense. Semi-Double. White to blush pink.	4 to 6 inch, .90

Twenty Grand. Spreading, medium height. Semi-Double. Violet Red.
4 to 6 inch, .90

Willie Belle. Spreading, medium height, dense. Hose-in-Hose, frilled. Violet Red.
4 to 6 inch, .90

Kaempferi Hybrids

ROBERTA TO-2. A selected Kaempferi seedling of extreme hardiness. Single. Deep flame red. Early.
4 to 6 inch, .90
8 to 10 inch, 1.75
12 to 15 inch, 3.00

The above Kaempferi Azalea are very hardy, strong growers, and will stand almost extreme shade. Very hardy in cold locations. Early. We grow these in limited quantities.

Joseph Gable's Hybrid Azaleas

Gable's hybrids are so well known for hardiness that little can be said other than we have proved their hardiness also and can highly recommend them for color and form; they also have handsome foliage which makes them an Evergreen worth growing.

A-17-G. H&H. Red.
6 to 8 inch, 1.25

Cameo. Double. Very attractive soft pink rose like flowers in profusion. Early.
6 to 8 inch, 1.25
8 to 10 inch, 1.75

Carol, B-8-G. Hose-in-hose. Brilliant crimson pink. Dwarf spreading plant. Good foliage. Early.
10 to 12 inch, 2.25

Caroline Gable. Pink.
15 to 18 inch, 4.00

Corsage. Single. Large orchid, fragrant flowers that cover the bush. A strong grower. Early.
8 to 10 inch, 1.75

Elizabeth Gable, 21-G. Semi-double. Salmon-rose. Beautiful deep green foliage. Mid-season.
6 to 8 inch, 1.25
8 to 10 inch, 1.75
10 to 12 inch, 2.25
12 to 15 inch, 3.00
15 to 18 inch, 4.00

F-12-G. Hose-in-Hose. Deep red. Good foliage and a handsome thing. Late.
8 to 10 inch, 1.75
10 to 12 inch, 2.25

Herbert, C-1-G. Semi-double. Large frilled and ruffled, dark crimson-purple. A very handsome and unusual Azalea. Early.
4 to 6 inch, .90
6 to 8 inch, 1.25
8 to 10 inch, 1.75
10 to 12 inch, 2.25

La Lumiere, 100-G. Single. A tall growing flame red that is excellent for deep shade. Early.
6 to 8 inch, 1.25
8 to 10 inch, 1.75
12 to 15 inch, 3.00

Louise Gable, 13-G. Double. Large salmon-pink flowers; compact, twiggy plant. Early.
4 to 6 inch, .90
6 to 8 inch, 1.25
8 to 10 inch, 1.75
10 to 12 inch, 2.25
12 to 15 inch, 3.00

Mary Ann, 38-G. Double. A good pink with a profusion of bloom and a good plant habit. About the hardiest double. Mid-season.
4 to 6 inch, .90
6 to 8 inch, 1.25
8 to 10 inch, 1.75
10 to 12 inch, 2.25
12 to 15 inch, 3.00

Rose Bud, B-5-G. Double. Rose pink flowers on a very dwarf plant. Unusually floriferous, and could be taken for a dwarf rose. Limited stock. Early.
4 to 6 inch, .90
8 to 10 inch, 1.75

Mildred Mae. Lavender.
8 to 10 inch, 1.75

Rose Greeley, D-3-G. Hose-in-hose. Large white of good form with a light green foliage. Early.
4 to 6 inch, .90
6 to 8 inch, 1.25

152-G. Single. A handsome deep pink with a dark green foliage that blooms when there is a lull in Azalea bloom. Late.
6 to 8 inch, 1.25
15 to 18 inch, 4.00

0-7-G. Very new. Orange. Late
6 to 8 inch, 1.25

Visit the Nursery and see some of the beautiful plants of Hybrid Rhododendron, Yews, Magnolia, Dogwood, Ilex and many others of the plant aristocrats in smaller sizes that are not too costly.

Mollis Hybrids

Deciduous, upright, tall. Late, midseason. Large flowers, 2½ inches across and in clusters of 7 to 13. Single in a very striking range of colors from yellow, orange to orange red. Do well in the full sunlight if kept on the moist side. The following list are heavy branched, two year old plants ranging from 8 to 12 inches in height. Well budded. Growing here at Ten Oaks.
2.25 each

Coccinia Speciosa. Orange red.

Kosters Brilliant. Orange red. (Bittersweet orange)

Director Moerlands. Best pure yellow yet.

C. B. Van Nes. Fire red. (Brilliant)

Conde de Quincy. Light yellow. (Chrome yellow)

Dr. M. Oosthock. Deep orange red.

Ghent Hybrid--Seedling Grown

A very beautiful group of Azalea, originated in Belgium. Deciduous, upright, tall, broad, with flowers from 1½ to 2½ inches across. Will take 25 degrees below. Like full sun; moist soil (not wet soil).

These seedlings were grown from seed here at Ten Oaks from one of the finest collections of Ghent Hybrids in this country; located on an estate in the North. They are three years old and heavily branched. Many bloomed last year and were a knockout; running 90% yellow and shades of orange. Of course all are own roots, which gives them lasting quality. Being seedlings we cannot guarantee them as to color.

8 to 12 inch, 2.25
12 to 15 inch, 3.00

Native Species

These were grown from seed here at Ten Oaks; saved from selected parents, not collected junk!

Calendulaceum. Upright, tall. Late flowering, about June. Remarkable range of fine colors, yellowish orange, orange red and burnt oranges. Being seedlings we cannot guarantee as to color.

8 to 12 inch, 2.25
12 to 15 inch, 3.00

Arborescens. Upright, tall. Late flowering, about June. White, rarely with a pink flush. Very fragrant and a Prize for a cool moist spot. Heavy Branched plants.
10 to 12 inch, 2.25

Azalea Lists and Helps

Here is an up-to-date list of Azaleas under color headings that are in general use. For full description, look in the descriptive list of this catalogue. This listing entailed an enormous amount of work, and there may be a few mistakes which will be corrected in time; but we hope it will help you in knowing something about your plant before purchasing. Although not in detail, this list will give you your color range, height at maturity, time of blooming, and type of bloom—whether single, hose-in-hose, or double.

LEGEND OF ABBREVIATIONS USED IN LISTING

- O. Red—Orange-red.
- Red—All shades of red.
- Pink—All shades of pink.
- Rose—All shades of rose.
- Sal. R.—All shades of salmon-red.
- Sal.—All shades of salmon-pink.
- Sal. O.—All shades of salmon-orange.
- Lil.—All shades of lilac.
- Lav.—All shades of lavender.
- Pur.—All shades of purple.
- Wh.—Pure or near pure white.
- Wh. V.—White, with other color flecks or stripes.
- Y.—All shades of yellow.
- Y. O.—All shades of orange to yellow.

Read cultural directions.

Si.—Single flowers.
Do.—Double flowers.
H. H.—Hose-in-hose, flower in flower.
Mid.—Mid-season.
Very low—1 to 2 ft., mature height.
Low—2 to 4 ft., mature height.
Medium—4 to 5 ft., mature height.
Tall—5 to 7 ft., mature height.

EVERGREENS

All Evergreens are compact, pruned, branched specimens, regardless of size, not the usual spiny, lead-pencil type—with no branches.

All Evergreens are shipped "Express Collect"—No Parcel Post, Excepting the 3 to 5 inch plants in 2½" Cypress bands which are shipped Prepaid East of Mississippi. Please add 10% West of Mississippi.

Quality Evergreens

NEEDLE AND BROADLEAF ABIES (FIR)
 Abies Balsamea (Balsam Fir). Rapid, slender grower with purple cones. Foliage silvery on underside.
 BL 42 2½ to 3 ft. Height, 6.00

Place your Azalea orders early.

ABELIA

Abelia Grandiflora (Pale Pink Abelia). Bright shiny foliage. Pale pink and white blossoms throughout the Summer.

BL 15	1 to 1½ ft. Height, 2.00
BL 25	2½ to 3ft. Height, 3.50

ANDROMEDA (SEE PIERIS)

ARBOR VITAE (SEE THUJA)

BERBERIS (BARBERRY EVERGREEN)

B. Julianae (Juliana Barberry). Erect plant with compact growth. Yellow blooms, grayish blue berries.
 BL 15 10 to 12 in. Height, 2.00
 BL 20 12 to 15 in. Height, 3.00

B. Triacanthophora (Threespine Barberry). Narrow and pointed bright green foliage. Pink flower buds, opening to yellowish-pink.
 BL 20 1 to 1½ ft. Height, 3.00

BUXUS (BOXWOOD)

B. Semperfivrens (American Green). Much faster grower than the English type. Excellent for use in hedges.
 BL 3 6 to 8 in. Height, .50

B. Semperfivrens (American Golden). Same grower as American Green but with golden foliage.
 BL 5 6 to 8 in. Height, .75

B. Chinese. Large rounded leaf, compact grower, more bush than upright.
 BL 5 6 to 8 in. Height, .75
 BL 17 12 to 18 in. Height, 2.50

B. Suffruticosa (English). Known to many as the dwarf boxwood, used often for low hedging in formal gardens.

BL 3	4 to 6 in. Height, .50
BL 9	6 to 8 in. Height, 1.25
BL 15	8 to 10 in. Height, 2.25

Cedrus Deodora. Featherly blue foliage. Hardy South of Phila.
 BL 17 12 to 15 in. Height, 2.50

CHAMAECYPARIS
(THE RETINOSPORA AND CYPRESS)

C. Lawsoniana (Green Lawson). Handsome columnar tree, metallic blue foliage.
 BL 38 3 to 3½ ft. Height, 5.50

C. Obtusa (Tom Thumb—Dwarf). Dwarf and compact with deep rich green foliage.
 BL 22 15 to 18 in. Height, 3.00
 BL 27 18 to 24 in. Height, 3.50

C. Pisifera Plumosa (Green Plume). Upright grower, light green foliage, soft and feathery.
 BL 20 15 to 18 in. Height, 3.00
 BL 25 18 to 24 in. Height, 3.50

Sizes available under each description

C. Pisifera Plumosa Aurea (Golden Plume). Upright grower, bright golden tipped branches.

BL 20 15 to 18 in. Height, 3.00
BL 25 18 to 24 in. Height, 3.50

C. Pisifera Plumosa Varigata (Silver Plume). Upright grower, bright silvery foliage.

BL 20 15 to 18 in. Height, 3.00

C. Pisifera Squarrosa Veitchi (Blue Moss). Upright grower, blue gray, feathery, dense foliage.

BL 20 15 to 18 in. Height, 3.00
BL 25 18 to 24 in. Height, 3.50

CRYPTOMERIA

C. Japonica Lobbi. Hybrid form of Japonica. Upright compact grower. Grafted plants.

BL 25 15 to 18 in. Height, 3.00

ELEAGNUS

Elaeagnus Pungens (Olive). Shrub type growth with silvery-green leaves. Small silvery-white flowers, very floriferous, blooming in Autumn, flowers very fragrant.

BL 20 1½ to 2 ft. Width, 2.50
BL 30 2 to 2½ in. Height, 4.00

EUONYMUS

Euonymus Vegetus (Evergreen Bittersweet). Evergreen, trailing shrub. Berries red in profusion.

BL 20 1½ to 2 ft. Width, 3.00

HOLLY (SEE ILEX)

ILEX (HOLLIES)

CUT YOUR OWN BERRIES FOR CHRISTMAS IN THE FUTURE

Holly Collection

Hollies in variety as listed in the following pages will be put in your collection Our Selection. We will give as broad a selection as possible including one Male and nine Female Hollies of the American, European and Chinese Hardy Types. Plants are all 3 to 5 inch in height and established in a 2½" Cypress band with a good root system ready to be bedded out for two or three years before planting them in their permanent location.

Hollies should be protected from the winds for the first few years, during the winter months. While they are still small plants, the simplest way to protect, is to invert a tall half or one bushel basket over the plant and lay a piece of flat stone on top of the basket to keep the wind from blowing away your basket and breaking up your plants.

We reserve the right to give 1 or 2 substitutes on collection offers in case of sell outs in certain varieties.

All Holly are well rooted plants established 2 years old.

All of our Hollies are propagated from berry-bearing stock.

We will also have most of the below listed Hollies out of 5 inch pots for delivery in the Fall.

Approximate height is 6 to 10 inches depending on the variety, priced @ **2.00**. Express Collect.

For Hollies see "Collection Offers" in this catalogue.

ILEX AQUIFOLIA (ENGLISH HOLLY)

I. Aquifolia Balearica. A very beautiful form of English Holly, with large glossy leaves. Upright but broad in growth. Fruit very large and a bright red.

10 to 12 in. Height, 3.00

➤ I. Aquifolia Butler. Very glossy leaves, with large triangular spiny teeth. Fruit a bright red. A hardy strain.

6 to 10 inch, \$2.00

10 to 12 in. Height, 3.00

➤ I. Aquifolia Beadle's Spiny Leaf. A very rare Holly, dark green leaves and very spiny.

10 to 12 in. Height, 3.00

➤ I. Aquifolia Bisexual. A unusual holly bearing both male and female blooms. Berries.

6 to 10 in. Height, 2.00

I. Aquifolia Camelliaefolia. A very beautiful form of the English Holly, with Camellia-like foliage which colors a beautiful bronze-green in Winter. Very large red berries. Form rather broad, more so than tall.

8 to 10 in. Height, 3.00

I. Aquifolia Pyramidal—Compacta. A very compact form of English Holly with crowded erect growing branches, yet broad. Leaves dark green. They are toothed and smooth. The berries are bright red.

10 to 12 in. Height, 3.00

ILEX CORNUTA (CHINESE HOLLY)

I. Cornuta Burfordi. Mostly smooth shiny dark green leaves. The plant is handsome and the berries are large and very bright red.

6 to 10 in. Height, 2.00

10 to 12 in. Height, 3.00

18 to 24 in. Height and Width, 7.00

I. Cornuta Cilio—Spinosa. Growth extremely upright, usually in the form of a pyramid. Leaves are medium in size and dark green. Red berries. Perfectly hardy.

6 to 8 in. Height, 3.00

I. Cornuta Femina. Compact pyramidal grower. Berry-bearing leaves dark glossy green, very showy.

6 to 10 in. Height, 2.00

I. Cornuta Pernyi. A slow growing pyramidal plant having small spined, glossy green leaves and scarlet berries which cling close to the stem.

4 to 6 in. Height, 2.00

6 to 10 in. Height, 3.00

Try Azalea blossoms floating in a bowl.

Name some substitutes.

Fall, 1953

I. Cornuta Pernyi Veitchii. Leaves are a little larger than Pernyi and are more pointed. Berries scarlet, clinging close to the stem.

4 to 6 in. Height, 2.00
6 to 10 in. Height, 3.00

I. Cornuta Rotunda. Plant is very bushy, growing as broad as it does tall. Leaves dark green and very spiny. No Berries.

6 to 8 in. Height, 4.00

ILEX CRENATA (JAPANESE HOLLY)

I. Crenata. A heavy branched bush form that prunes well. The leaves are small and lustrous green. Fruit is black.

BL 3	3 to 5 in. Height, .50
BL 17	8 to 10 in. Height, 2.50
BL 25	15 to 18 in. Height, 3.50
BL 32	1½ to 2 ft. Height, 4.50

I. Crenata Bullata (Convexa). A fairly slow growing form of Crenata, with glossy box-shaped leaves. Very pretty and good for borders or rock gardens.

BL 3	3 to 5 in. Height, .50
------	------------------------

I. Crenata Fortunei. A strong growing plant with dark green leaves, somewhat longer than wide. Berries are black. Upright growth. Prunes well.

BL 3	3 to 5 in. Height, .50
BL 15	6 to 8 in. Width, 2.00
BL 20	10 to 12 in. Width, 3.00
BL 25	15 to 18 in. Width, 3.50

I. Crenata Microphylla. This is the true form of Microphylla. Tiny leaved Holly with many twiggy branches making it a dense plant. An excellent Evergreen for low planting.

BL 3	3 to 5 in. Height, .50
BL 17	8 to 10 in. Width, 2.50
BL 25	10 to 15 in. Width, 3.50
BL 30	15 to 18 in. Width, 4.00

I. Crenata Rotundifolia. A very compact plant with bright shiny Evergreen leaves. Oval shape in growth. Fruit is black. Prunes well.

BL 3	3 to 5 in. Height, .50
BL 20	10 to 12 in. Width, 3.00
BL 25	15 to 18 in. Width, 3.50
BL 32	18 to 24 in. 4.50

ILEX GLABRA (INKBERRY)

I. Glabra. Upright grower, medium green foliage, fruit black.

BL 20	12 to 15 in., 3.00
BL 27	15 to 18 in. Width, 3.50

ILEX OPACA (AMERICAN HOLLY)

The following varieties of Opaca are named and selected clones and are not collected seedlings.

I. Opaca Arden. Wonderful and good grower. Originated in Del.

6 to 10 in., 2.00

I. Opaca Clark. A beautiful Holly with lustrous green leaves deeply toothed. Berries a very bright red. Vigorous grower.

15 to 18 in. Height, 3.00
24 to 30 in. Height, 5.50

I. Opaca Delia Bradley. Leaves are evenly toothed. Berries bright red in great profusion. Noted for its fruiting habit on small plants.

6 to 10 in. Height, 2.00
12 to 15 in. Height, 3.00
18 to 24 in. Height, 4.00
24 to 30 in. Height, 5.50

I. Opaca Dorsey. Large medium green leaves and large bright red berries in profusion. Blooms late so it never misses a berry set.

12 to 15 in. Height, 3.00
18 to 24 in. Height, 4.00
24 to 30 in. Height, 5.50

I. Opaca, East Palatka. Evergreen leaves, practically spineless. Deep red berries borne in heavy clusters.

6 to 10 in. Height, 2.00

I. Opaca Forage. Leaves nearly twice as long as broad, deep green and nicely toothed. Berries red.

15 to 18 in. Height, 3.00

I. Opaca Howardi. Deep dark green leaves, some with teeth and others with few or none at all. Berries deep red.

8 to 10 in. Height, 2.00

I. Opaca Joyce. Dark green leaves, evenly toothed, glossy. Berries are very bright red.

15 to 18 in. Height, 3.00
18 to 24 in. Height, 4.00
24 to 30 in. Height, 5.50

I. Opaca Knight. Grows in a perfect pyramid and straight as a tulip tree, deep red berries hang on until tree blooms again the next Spring. Leaves are well toothed.

6 to 10 in. Height, 2.00
15 to 18 in. Height, 3.00
2 to 2½ ft. Height, 5.50

I. Opaca Lake City. Pyramidal growing type. Heavy fruiter.

6 to 10 in. Height, 2.00

I. Opaca Male. Perfect deep green foliage that will make a good Evergreen for any group. Hollies produce staminate and pistillate flowers on different plants. Therefore a male plant should be planted somewhere near a group of berry-bearing plants to set fruits. All other varieties listed in this catalogue are femina or berry-bearing. Generally one male plant will be all that is needed if placed to the windward.

6 to 10 in. Height, 2.00
15 to 18 in. Height, 3.00
2 to 2½ ft. Height, 5.50

I. Opaca Merry Christmas. A very vigorous grower with foliage and berries of a very good color.

6 to 10 in. Height, 2.00
10 to 12 in. Height, 3.00
24 to 30 in. Height, 5.50

- I. **Opaca Snowden.** Very heavy foliage, berries larger than average and persistent.
15 to 18 in. Height, 3.00
- I. **Opaca Taber No. 3.** Very handsome holly with bright shiny green leaves. Berries bright red.
6 to 10 in. Height, 2.00
- I. **Opaca Ten Oaks.** Large deep green oblong leaf, large orange-red berries. Heavy fruiter.
15 to 18 in. Height, 3.00

JUNIPERUS (THE JUNIPERS)

- J. **Chinensis Pfitzeriana (Pfitzer Juniper).** Broad spreading habit, with gray-green foliage.
BL 22 15 to 18 in. Width, 3.50
BL 32 1½ to 2 ft. Width, 4.50
BL 40 24 to 30 in. Width, 5.50
- J. **Communis Depressa Plumosa (Andorra).** Low growing, spreading plant with silvery green foliage which turns to a rich purple in Autumn.
BL 30 1½ to 2 ft. Height, 4.50
- J. **Excelsa Stricta (Spiny Greek).** Compact, slow grower with gray-green foliage.
BL 30 1½ to 2 ft. Width, 4.00
- J. **Hibernica (Irish).** Upright grower, very slim with gray-green foliage.
BL 17 2½ to 2 ft. Height, 2.50
- J. **Horizontalis (Creeping Juniper).** Very low growing, clinging to the ground, with good green foliage. Excellent for planting of steep banks as the roots will hold the soil from washing.
BL 25 30 to 36 in. Width, 3.50
- Ligustrum Lucidum.** Evergreen laurel like foliage, glossy.
BL 30 1½ to 2 ft. Height, 4.50

MAGNOLIA

- M. **Grandiflora.** Deep green foliage the year around, 12 inch white flowers in Mid-Summer.
BL 20 12 to 18 in. Height, 3.00
3 to 4 ft. Height, 10.00

OSMANTHUS

- O. **Aquifolium (Sweet Holly).** Very spiny leafed, looking like one of the Hollies. Flowers are very fragrant. Grows to same shape as Holly.
BL 10 10 to 12 in. Height, 1.50
BL 45 12 to 15 in. Height, 2.50
BL 17 18 to 24 in. Height, 6.00

PICEA (THE SPRUCES)

- P. **Canadensis Alba (White Spruce).** Compact growing specimen, densely clothed in silvery green needles.
BL 27 1½ to 2 ft. Height, 4.00
BL 35 2 to 2½ ft. Height, 5.00
BL 45 24 to 36 in. Height, 6.50

- P. **Excelsa (Norway Spruce).** Rapid grower, dark green foliage.
BL 27 2 to 2½ ft. Height, 4.00
BL 45 30 to 36 in. Height, 6.50

PIERIS (ANDROMEDA)

- P. **Japonica (Japanese Andromeda).** Broadleaf evergreen. Thick, shiny leaves, turning bronze in Winter, white blossoms in early Spring. Thick bushy plants.
BL 17 8 to 10 in. Height, 2.25
BL 22 12 to 15 in. Height, 2.75
BL 27 15 to 18 in. Height, 3.50

PINUS (THE PINES)

- P. **Montana Mugus (Mugho Pine).** Slow growing, very hardy, compact and neat in habit.
BL 35 15 to 18 in. Height, 5.00
BL 45 18 to 24 in. Height, 6.50

- P. **Resinosa (Red Pine).** Long dark green needles on stout spreading branches. Hardy and vigorous.
BL 25 1 to 1½ ft. Height, 3.50
BL 35 2 to 2½ ft. Height, 5.00
BL 45 30 to 36 in. Height, 6.50

- P. **Strobus (White Pine).** Soft feathery bluish-green foliage. We think it is one of the finest.
BL 20 1½ to 2 ft. Height, 3.00
BL 150 6 to 8 ft. Height, 20.00

- P. **Sylvestris (Scotch Pine).** Rapid grower, silvery foliage.
BL 35 2 to 2½ ft. Height, 5.00
BL 45 30 to 36 in. Height, 6.50

PRUNUS (CHERRY LAUREL)

- P. **Laurocerasus Schipkaensis (Cherry Laurel).** Waxy Laurel-like foliage. A fine broadleaf evergreen. Plants are very compact.
BL 15 10 to 12 in. Height, 2.00
1½ to 2 ft. Height, 3.00

PYRACANTHA (FIRETHORN)

- P. **Coccinea Lalandi (Upright Firethorn).** Dark green leaves, small white flowers. Clusters of orange-red berries in late Summer.
BL 25 18 to 24 in. Height, 3.50

- P. **Crenulata (Red Berry Firethorn).** Dark green leaves, small white flowers. Clusters of bright red berries in late Summer.
BL 42 18 to 24 in. Height, 6.00

RETINOSPORA (SEE CHAMAECYPARIS)

2 to 4 inch plants in the spring only.

HYBRID RHODODENDRONS

These Hybrid Rhododendrons are grown here so as to be acclimated, and are not imported. The below listed plants are very heavy bushy plants, and are 12 to 18 inches in height.

BL 48 6.00

Caractacus (Crimson Red)

Catawbiense Alba (White)

Catawbiense grandiflorum (Cobalt Violet)

Dr. Dresselhuys (Red)

Dr. Rutgers (Raspberry Red)

Everistianum-Lav., Frilled

Gomer Waterer, White

Old Port (Deep Red)

Van de Broeke (Raspberry Red)

Van Weerden Poelman (Crimson Red)

Catawbiense grandiflorum. Cobalt Violet.

24 to 36 inch. 7.50

Catawbiense Album. White.

24 to 36 inch. 7.50

NATIVE RHODODENDRONS

Not Collected—our own seedlings from picked stock.

R. Carolinianum. Bright pink, small leafed, bushy plants.

BL 20 8 to 12 in. Height, 2.50
BL 25 12 to 15 in. Height, 3.00

R. Catawbiense. Rosy purple. Heavy bushy plants.
6 to 8 in. Height, 1.75
1½ to 2 ft. Height, 7.50

R. Maximum. White to light pink. Heavy bushy plants.
BL 15 8 to 10 in. Height, 2.00

SPRUCE (SEE PICEA)

TAXUS (THE YEWS)

ALL VARIETIES AVAILABLE 3 TO 5 INCHES

SPRING ONLY

AT .50 EACH P. P.

T. Baccata Aurea (Golden English Yew). Pyramidal form, compact, with bright golden yellow leaves.

BL 20 12 to 15 in. Height, 3.00
BL 32 15 to 18 in. Height, 4.00

T. Baccata Erecta (Erect English Yew). Erect growing type of English Yew.

BL 20 10 to 12 in. Height, 2.50
BL 25 12 to 15 in. Height, 3.00

T. Baccata Hibernica (Irish Yew). A strictly fastigate form, with stout crowded upright branches. Very dark glossy green foliage. Not too hardy North of Philadelphia.

BL 15 8 to 10 in. Height, 2.00
BL 32 10 to 15 in. Height, 3.00

T. Baccata Repandens (Weeping English Yew). Foliage dark green, with branches giving a nice weeping effect. Excellent for low plantings.

BL 30 12 to 15 in. Width, 4.00
BL 40 15 to 18 in. Width, 6.00
BL 60 18 to 24 in. Width, 8.00

T. Cuspidata (Japanese Spreading Yew). Compact, spreading Evergreen with dark green foliage and red berries.

BL 20 10 to 12 in. Width, 3.00
BL 25 12 to 15 in. Width, 3.50
BL 33 15 to 18 in. Width, 4.75
BL 44 18 to 24 in. Width, 6.75

T. Cuspidata Femina. A select heavy berry form of Cuspidata. Dwarf Yew with good growing habits.

BL 30 12 to 15 in. Width, 4.50
BL 40 15 to 18 in. Width, 5.50

T. Cuspidata Densa (New Compact Dwarf Japanese Yew). Low growing, very dense foliage and a good dark green.

BL 20 8 to 10 in. Width, 3.00
BL 23 10 to 12 in. Width, 3.50
BL 30 12 to 15 in. Width, 4.50
BL 65 18 to 24 in. Width, 8.00

T. Cuspidata Nana Brevifolia. Spreading branches closely clothed with short branchlets. Somewhat shorter and duller than the type. Slow growing, compact.

BL 20 8 to 10 in. Width, 3.00
BL 28 10 to 12 in. Width, 4.00
BL 42 12 to 15 in. Width, 6.00

T. Cuspidata Nana. A very dwarf, miniature clone, with foliage same as Brevifolia. Excellent for use in rock gardens.

BL 20 6 to 8 in. Width, 3.00
BL 33 8 to 10 in. Width, 4.50

T. Media Andersoni. Wide vase-like form of Media. Excellent for hedges or as a specimen plant.

BL 26 12 to 15 in. Width, 3.50
BL 35 15 to 18 in. Width, 5.00

T. Media Hatfield No. 2. Upright grower in a globe shape, very dense and dark green foliage. Very wonderful plant.

BL 20 10 to 12 in. Height, 3.00
BL 53 2 to 2½ ft. Height, 7.50

T. Media Hicksii (Hicks Yew). Very distinct columnar form with upright branches. Dark green foliage.

BL 20 1 to 1½ ft. Height, 3.00
BL 28 1½ to 2 ft. Height, 4.00
BL 45 2 to 2½ ft. Height, 6.50
BL 52 2½ to 3 ft. Height, 7.50

T. Media Kelseyi (Kelsey Yew). Upright grower with very dense foliage. Somewhat like that of Nana. Fairly slow grower, bearing berries on very small plants.

BL 26 12 to 15 in. Height, 3.50
BL 35 15 to 18 in. Height, 5.00

T. Media Ovalis. Upright, but broad in habit of growth. A heavy fruiter with large dark green foliage.

BL 19 10 to 12 in. Height, 2.50
BL 20 12 to 15 in. Height, 3.00
BL 52 18 to 24 in. Height, 7.50

THUJA (ARBOR VITAE)

T. Occidentalis (American Arbor Vitae). Upright flat-leaved Evergreen, medium green foliage, becoming bronzy in Winter.

BL 26	2½ to 3 ft. Height, 3.50
BL 33	3½ to 4 ft. Height, 4.50

T. Occidentalis Boothi. Improved form of Globe Arbor Vitae.

BL 20	15 to 18 in. Height and Width, 3.00
BL 23	18 to 20 in. Height and Width, 3.50

T. Occidentalis Globosa (Globe Arbor Vitae). Dwarf grower, globe in shape without pruning. Medium green foliage.

BL 12	12 to 15 in. Height, 1.75
BL 15	15 to 18 in. Height, 2.00

T. Occidentalis Pyramidalis (Pyramid Arbor Vitae). Glossy, dark green foliage. Upright pyramid type grower.

BL 20	2 to 2½ ft. Height, 3.00
BL 23	2½ to 3 ft. Height, 3.75
BL 33	3 to 4 ft. Height, 4.50
BL 55	5 to 6 ft. Height, 7.50

T. Occidentalis Nigra. Improved form of American Arbor Vitae. More symmetrical in form, deeper green foliage.

BL 10	8 to 10 in. Height, 1.50
-------	--------------------------

TSUGA (HEMLOCK)

T. Canadensis (Canadian Hemlock). Very graceful branches, medium green foliage. Perfectly at home in the coldest or shadiest exposure. Pruned specimens.

3½ to 4 ft. Height, 5.50
4 to 5 ft. Height, 7.50
5 to 6 ft. Height, 9.50

VIBURNUM

Viburnum Rhytidophyllum (Leather Leaf Viburnum). Evergreen Viburnum with long fairly narrow rough leaves. Fruit is bright red in large clusters, turning black. Will do well in shade.

BL 35	2 to 2½ ft. Height, 5.00
BL 40	2½ to 3 ft. Height, 5.50

YEWS (SEE TAXUS)

Deciduous Ornamental Trees and Shrubs

ACER (THE MAPLES)

A. Dasycarpum (Silver Maple). Foliage is a light green and silvery on the underside. A very fast grower and hardy.

BL 18	4 to 5 ft. Height B.R., 2.50
-------	------------------------------

Try a Yew Collection.

A. Palmatum Atropurpureum (Bloodleaf Maple). The true dwarf Japanese Bloodleaf Maple. Foliage is a rich purple red.

BL 30	10 to 12 in. Height B&B, 4.00
-------	-------------------------------

A. Platanoides (Norway Maple). Grows wide and spreading at the top, with dark green foliage.

BL 30	6 to 8 ft. Height, 1 in. cal. B.R., 4.00
-------	--

BL 56	8 to 10 ft. Height, 2 to 2½ in. cal. B.R., 8.00
-------	---

A. Rubrum (Red Maple). Sometimes called Scarlet Maple. Grows with a spreading top, has clusters of reddish flowers in Spring, brilliant red foliage in the Fall.

BL 20	4 to 5 ft. Height B.R., 3.00
-------	------------------------------

BL 30	6 to 7 ft. Height B.R., 4.00
-------	------------------------------

BL 42	8 to 10 ft. Height, 1 to 1½ in. cal. B.R., 6.00
-------	---

A. Saccharum (Sugar Maple). An ideal tree for lawns, streets or drives. Has good green foliage in Summer with gorgeous coloring in Autumn. Grass will grow under it, and it will not break-up walks.

BL 35	6 to 7 ft. Height B.R., 5.00
-------	------------------------------

BL 59	8 to 10 ft. Height, 1 in. cal. B.R., 7.00
-------	---

BL 250	12 to 14 ft. Height, 2 in. cal., Heavy top B&B, 35.00
--------	---

AMELANCHIER CANADENSIS (THE SHADBUSH)

Pure white flowers in Spring.

BL 28	5 to 6 ft. Height B.R., 4.00
-------	------------------------------

BL 35	6 to 7 ft. Height B.R., 5.00
-------	------------------------------

BEECH (SEE FAGUS)

BETULA (THE BIRCH)

B. Paprifera (White or Canoe Birch). Large leafed with white bark. Medium grower.

BL 35	5 to 6 ft. B&B, 5.00
-------	----------------------

B. Pendula Gracilis (Cutleaf Weeping Birch). Medium graceful grower. Small cutleaf.

BL 56	6 to 7 ft. Height B&B, 8.00
-------	-----------------------------

BL 85	7 to 8 ft. Height B&B, 12.00
-------	------------------------------

CERCIS (RED BUD OR JUDAS TREE)

C. Canadensis (American Red Bud). Reddish purple flowers in the Spring. Medium sized tree.

BL 35	5 to 6 ft. Height, B.R., 5.00
-------	-------------------------------

BL 42	6 to 8 ft. Height B.R., 6.00
-------	------------------------------

CHERRY (SEE PRUNUS)

CORNUS (THE DOGWOODS)

C. Florida (White Flowering Dogwood). White blossoms in early Spring before leaves appear. Brilliant scarlet berries and leaves in Autumn.

BL 11	1½ to 2 ft. Height B&B, 1.50
-------	------------------------------

BL 38	4 to 5 ft. Height B&B, 5.50
-------	-----------------------------

BL 56	6 to 7 ft. Height B&B, 8.00
-------	-----------------------------

10 to 12 ft. Height, Heavy top, 4 to 5 in. cal. B&B, 75.00

C. Florida Rubra (Pink or Red Flowering Dogwood). Clear, large pink flowers in Spring. Brilliant scarlet foliage and berries in Autumn.

BL 42	2½ to 3 ft. Height, bushy plants, B&B, 6.00
-------	---

2½ to 3 ft. Height, bushy plants, own roots B&B, 8.00

Protect small plants in Winter.

CRABAPPLE (SEE MALUS)

CYDONIA (FLOWERING QUINCE)

C. **Japonica** (Flowering Quince). Large, deep crimson and orange-red blossoms are produced in masses as the rich glossy green leaves come out.

18 to 24 in. Width B&B, 5.00

C. **Boule de Fue** (Red Quince). Same as Japonica except that it has red blossoms.

2½ to 3 ft. Height B&B, 5.00

C. **Nivalis** (White Quince). Same as Japonica except that it has white blossoms.

2½ to 3 ft. Height B&B, 5.00

DEUTZIA

D. **Scabra** Pride of Rochester. Pink-tinged flowers blooming in June.

BL 15 3 to 4 ft. Height, 2.00

DOGWOOD (SEE CORNUS)

ELM (SEE ULMUS)

FAGUS (THE BEECH)

F. **Americana** (American Beech). Bark is smooth and gray in color. Beautiful golden yellow foliage in Autumn. These trees are heavy specimens.

6 to 8 ft. Height, 2½ to 3 in. cal. B&B, 25.00
10 to 12 ft. Height, 3½ to 4 in. cal. B&B, 50.00

F. **European** (Copper or Purple Beech). A very handsome copper Beech, very slow growing.

BL 30 1 to 1½ ft. Height B&B, 4.00
2 to 2½ ft. Height, B&B, 6.00

FORSYTHIA

F. **Spectabilis**. One of the best Forsythia, rich golden yellow flowers in great profusion. Plants are very heavy branched specimens.

BL 18 3 to 4 ft. Height B&B, 2.50

F. **Viridissima** (Greenstem Forsythia). Yellow flowers in profusion, weeping habit of growth.

BL 20 4 to 5 ft. Height B&B, 3.00

GINKGO

G. **Biloba** (Maidenhair Tree). Leaves shaped like maidenhair fern. Irregular habit of growth.

BL 25 2½ to 3 ft. Height B&B, 3.00

HYDRANGEA

H. **Paniculata Grandiflora** (White Summer). White flowers in late Summer and early Fall which change to red as the season advances.

BL 18 2½ to 3 ft. Height B&B, 2.50

Sizes available are under each description.

HYPERICUM

Patum Henryi (Henry Hypericum). Yellow flowers in July and August.

BL 15 1½ to 2 ft. Height B&B, 2.00

ILEX

I. Verticillata (Winterberry). A shrub type Holly with spreading branches covered with bright red fruit in Autumn.

BL 20 3 to 4 ft. Height B&B, 3.00

JUDAS TREE (SEE CERCIS)

LIGUSTRUM (PRIVET)

L. Ovalifolium (California Privet). Glossy green foliage. Used mostly for hedges as it is a very fast grower. We do not stock many of these plants—please order in advance.

15 to 18 in. Height B.R., .40

18 to 24 in. Height B.R., .50

2 to 3 ft. Height B.R., .70

LILAC (SEE SYRINGA)

LONICERA (THE BUSH HONEYSUCKLE)

L. Morrowi. Creamy white flowers, red fruit lasting until Autumn.

BL 20 4 to 5 ft. Height B&B, 3.00

MAGNOLIA

M. Grandiflora (See Evergreen list)
M. Soulangeana. White flowers tinted pink. Georgeous bloom in April and May.

BL 50 3 to 4 ft. Height B&B, 7.00

M. Stellata (Star Magnolia). Pure white semi-double flowers blooming early in Spring, usually April.

18 to 24 in. Height B&B, 5.00

MALUS (FLOWERING CRABS)

M. Parkmanni (Parkman Crab). Double pink blooms followed by brownish red fruit. Slow grower.

BL 35 5 to 6 ft. Height B.R., 5.00

M. Prince Georges (Hybrid). Very handsome double shell-pink flowers.

BL 35 5 to 6 ft. Height B.R., 5.00

M. Spectabilis (Chinese Flowering Crab). Pale pink semi-double flowers.

BL 35 5 to 6 ft. Height B.R., 5.00

MOCKORANGE (SEE PHILADELPHUS)

OAKS (SEE QUERCUS)

Well-decayed Oak leaves are good for Azaleas.

OXYDENDRUM (SOURWOOD)

O. **Arboreum** (Sourwood). White flowers in Summer with thick shiny leaves. Gray fruits and beautiful scarlet foliage in Autumn. Heavy, bushy plants.
 BL 35 3 to 3½ ft. Height B&B, 5.00

PRIVET (SEE LIGUSTRUM)

QUERCUS (THE OAKS)

Q. **Coccinea** (Scarlet Oak). Brilliant Fall foliage.
 6 to 8 ft. Height, 3 in. cal. B&B, 35.00
 10 to 12 ft. Height, 4 in. cal. B&B, 55.00

Q. **Palustris** (Pin Oak). A tall vigorous growing tree.
 BL 35 5 to 6 ft. Height, 1 to 1½ in. cal. B.R., 5.00
 BL 48 6 to 7 ft. Height, 1½ to 2 in. cal. B.R., 6.00
 BL 120 6 to 7 ft. Height, 2 in. cal. B&B, 15.00
 7 to 8 ft. Height, 2 in. cal. B&B, 35.00
 9 to 10 ft. Height, 3 in. cal. B&B, 50.00
 15 to 16 ft. Height, 4 in. cal. B&B, 75.00

Q. **Rubra** (Red Oak). Fast growing. Good Fall coloring.
 BL 35 5 to 6 ft. Height, 1½ to 2 in. cal. B.R., 5.00
 BL 120 6 to 8 ft. Height, 2 in. cal. B&B, 15.00
 8 to 10 ft. Height, 3 in. cal. B&B, 35.00
 10 to 12 ft. Height, 3 in. cal. B&B, 55.00

Q. **Phellos** (Willow Oak). Small willow-like leaves, turning pale yellow in the Fall.
 5 to 7 ft. Height, 1½ to 2 in. cal. B.R., 8.00

QUINCE (SEE CYDONIA)

RED BUD (SEE CERCIS)

SHADBUSH (SEE AMELANCHIER)

SNOWBALL (SEE VIBURNUM)

SORBUS (THE MOUNTAIN ASH)

S. **Aucuparia** (European Mountain Ash). Nice form of growth, produces scarlet berries from July to Winter.
 5 to 6 ft. Height B.R., 5.00

SPIREA

S. **Vanhouttei**. White flowers and beautiful foliage.
 BL 20 4 to 4½ ft. Height B&B, 3.00

SWEET GUM (SEE LIQUIDAMBAR)

SYRINGA (THE LILAC)

French Hybrid. Mixed as to varieties but all are French Hybrids.
 BL 18 2 to 3 ft. Height B&B, 2.50
 BL 20 3 to 3½ ft. Height B&B, 3.00

Try one of the Yew Collections

ULMUS (ELM)

U. **American** (American Elm). Makes a beautiful medium-sized shade tree. Fairly rapid grower. Arching branches.
 BL 25 6 to 7 ft. Height, 1 to 1½ in. cal. B.R., 3.50
 BL 35 8 to 10 ft. Height, 2 to 2½ in. cal. B.R., 5.00

VIBURNUM

V. **Americanum** (American Cranberry). White flowers in June with gorgeous red berries in Fall and Winter.
 BL 18 2½ to 3 ft. Height B&B, 2.50
 BL 20 4 to 4½ ft. Height B&B, 3.00

V. **Carlesii** (Fragrant Viburnum). Waxy, bluish-pink flowers of exquisite fragrance.
 BL 25 18 to 24 in. Height B&B, 3.50

V. **Dentatum** (Arrowwood). White flowers in May and June. Leaves are rich red and purple in Autumn.
 BL 15 2½ to 3 ft. Height B&B, 2.00

V. **Dilatatum** (Linden Viburnum). Upright grower with pure white flowers in May and June. Scarlet berries in Autumn.
 BL 20 2½ to 3 ft. Height B&B, 3.00

BL 42 5 to 6 ft. Height, B&B, 6.00

V. **Macrocephalum Sterilis**. A rare variety and one of the handsomest. The flowers in Spring are pure white and are in a head, making a perfect ball.
 BL 55 3 to 3½ ft. Height B&B, 8.00

V. **Plicatum** (Jap. Snowball). Pure white flowers in June, forming perfect round heads.
 BL 18 2½ to 3 ft. Height, B&B, 2.50

V. **Prunifolium**. Upright grower with white flowers in Spring. Flowers are flowered with white, then red fruit turning to black. These plants are heavy specimens.
 BL 70 6 to 7 ft. Height B&B, 10.00

WEIGELA

W. **Rosea**—Pink flowers. May & June.
 BL 15 18 to 24 in. Height, 2.00

Roses

We have here at the Nursery a small display of the latest and best varieties in the Hybrid Tea Roses. Everyone is invited to see these roses along with our private garden of Azaleas and other plants, though you may never spend a red cent. They are for your enjoyment and also to help you decide as to color in the rose you desire, as it is nearly impossible to get the true growth and color of a rose from a colored picture. If you would like to order roses we handle "The Star Roses" which we have found to be the best over a period of years. The roses we ship are dormant and at current prices of 2.00 each and 2.50 for the newer patented roses. You may purchase at the Nursery established 2 year roses in 9 inch pots from 2.00 to 3.00 each depending upon variety. We carry a few of the old standbys as well as some of the latest in roses.

2 to 4 inch plants: Spring only.

For any planting information please do not hesitate to ask us for it. If we cannot tell you the answer we can tell you where to go to obtain an answer to your questions. Below are listed a few items that might help you in selecting plant material.

The Azalea Handbook

Third Edition

published by

THE AMERICAN HORTICULTURAL SOCIETY

Written for the serious amateur by an Editorial Board composed of Frederic P. Lee, chairman, Dr. Fred O. Coe, B. Y. Morrison, Milo Perkins, and Freeman Weiss assisted by an Azalea Committee of distinguished horticulturists, taxonomists, plant breeders, plant propagators, plant pathologists, entomologists, nurserymen, and amateur growers.

Larger, more pages and includes index. 44 illustrations. \$3.00 a copy P. P. from the Secretary or \$2.75 if you visit us at the Nursery.

The Secretary,
The American Horticultural Society,
Washington Loan and Trust Building,
Washington 4, D. C.

YOUR BACKYARD NURSERY

As all of our old customers know, we have shipped them Azalea, Holly, Yews and other evergreens in small sizes with wonderful results for years and they have been able to grow a small replacement Nursery for very little money, also developed a nice hobby that has paid them dividends.

FIRST. Build a small lath-house out of 4 x 6 ft. frames with plaster lath nailed across them 2 inches apart. These frames cover both the roof and sides to give you shade and wind protection, or you can just use your lath frames to cover cold frames.

SECOND. Prepare the soil well by using $\frac{1}{2}$ peat, old oak leaves or decayed manure, $\frac{1}{2}$ good top soil loam about 1 foot deep. Put 1 handfull each of cottonseed meal and bone meal to every two square feet. Water well and then send for your young plants. Most important have plenty of drainage underneath. Allow for some time to settle.

THIRD. Water when soil becomes dry below the surface and never let the weeds grow, pull them don't use a hoe.

FOURTH. About Sept. 15th tack burlap, tar paper or kraft paper all the way up the sides on the northwest to keep out the fall and winter winds. Don't cover the top.

FIFTH. NOW ORDER SOME OF OUR COLLECTIONS.

YEW COLLECTION DELUXE

10—All different or alike yews, selected from catalog which are priced at 3.00 each. All labeled. Your Selection 25.00 Express Collect. (Offer T-53-F-3)

ORDER BY OFFER NUMBERS

HEMEROCALLIS OR DAYLILIES

We have a large stock of Daylilies, which we hybridized before World War II and all have bloomed. Many are as good as the present day named Hybrids selling for .75, 1.00, and 1.50 each. These plants are unnamed and unlabeled, so we offer them to you in the following mixed collections at a very low price for what you are receiving in return for your investment. They start blooming in Mid-May and go up into late June with a range of varieties. It is a nice thing for the garden as it will give you bloom when other plants such as Azaleas are fading away.

10—All different Divisions mixed. (Offer D-53-F-1)	4.50 P.P.
20—All different Divisions mixed. (Offer D-53-F-2)	8.00 P.P.
40—All different Divisions mixed. (Offer D-53-F-3)	15.50 P.P.
100—All different Divisions mixed. (Offer D-53-F-4)	32.00 P.P.

Shipped Prepaid East of Mississippi, Spring and Fall Anytime. Please add 10% West of Mississippi.

ABOUT OUR COLLECTION OFFERS

All our collections are picked with care in an effort to help you pick your plants which are confusing to some. The size and grade are of the same quality of plants used to fill orders of your choice. The economy involved in selecting and packing collections results in a saving of labor which we can pass on to you.

TERMS OF DELIVERY

CASH WITH ORDER

As we do a cash with order business only, all packing is done free of charge. Plants shipped Express Collect, excepting 2 to 4 inch and 3 to 5 inch plants in 2½" Cypress bands which are shipped Prepaid in our specially designed box whereby each plant is supported and fits in its own individual compartment allowing it to grow in transit, as the plant itself is never disturbed. If the plants arrive in bad weather, no need to worry, just set in a cool shady location and keep watered.

A .50 service charge is made in orders of 5.00 or less to help defray the packing expense which well equal that charge.

This catalog cancels all previous prices.

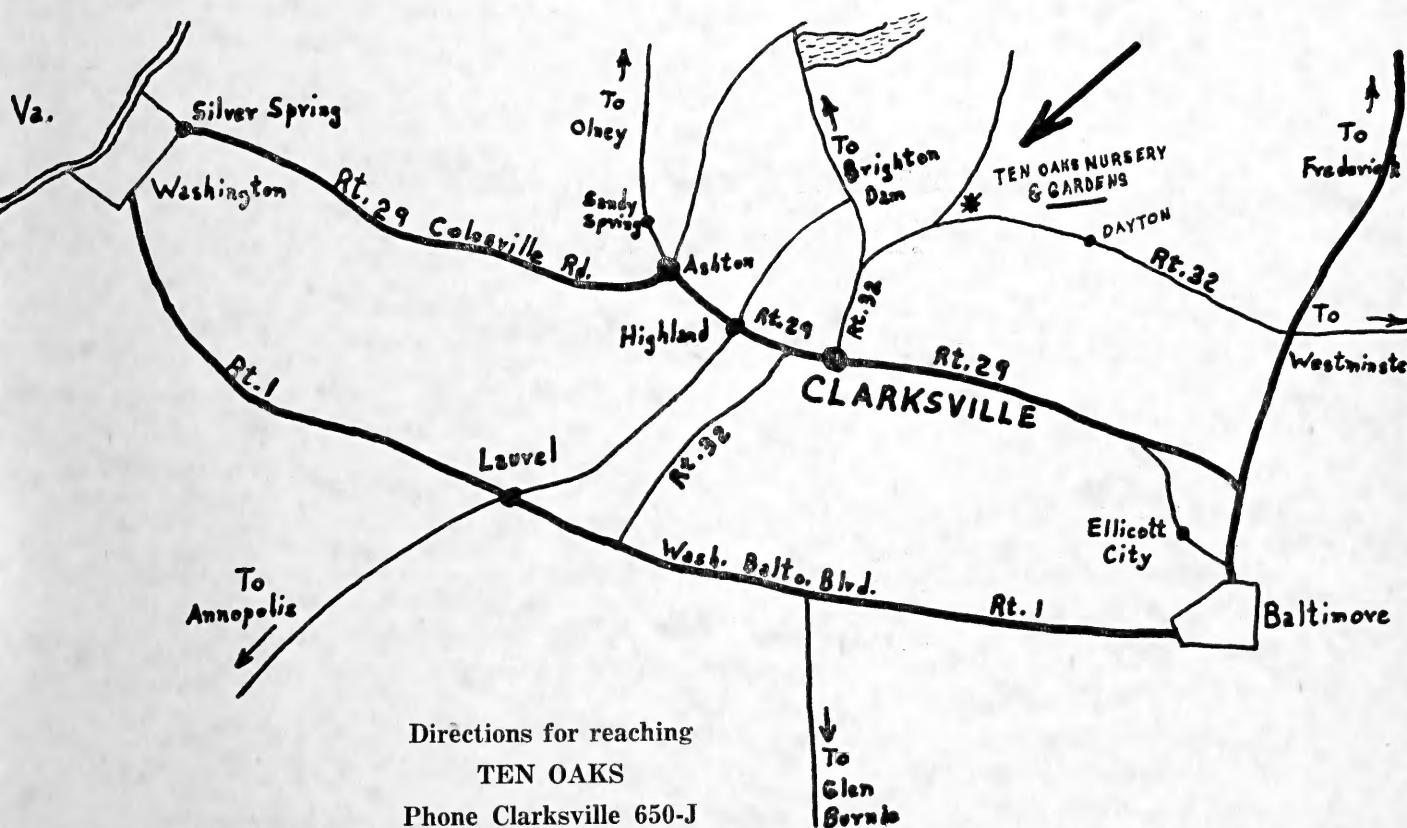

All orders are accepted subject to prior sale.

Local Deliveries for customers living within approximately 30 miles of our Nursery on days we have deliveries in that direction and if the size of the order warrants it. Deliveries outside of 30 mile area at cost.
